[Project No. 1517-008 Utah]

Monroe City Corporation; Notice of Availability of Final Environmental Assessment

August 8, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 F.R. 47897), the Office of Hydroelectric Licensing has reviewed the application for a new license for the existing Upper Monroe Hydroelectric Project, and has prepared a Final

Environmental Assessment (FEA) for the project. The project, which is located near Monroe City, in Sevier County, Utah, diverts water from three tributaries of Monroe Creek: Shingle Creek, First Lefthand Fork of Monroe Creek, and Serviceberry Creek.

In the FEA, the Commission's staff has analyzed the potential environmental impacts of the project and has concluded that approval of the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Branch,

Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.

Decision List No. 40

Week of June 30 Through July 4, 1997

Appeals

Information Focus on Energy, 7/3/97, VFA-0300

The Department of Energy (DOE) issued a Decision and Order (D&O) granting in part a Freedom of Information Act (FOIA) Appeal that was

filed by Information Focus on Energy (IFOE). In its Appeal, IFOE requested that the DOE review a fee waiver determination issued by the FOIA Officer at the Ohio Field Office. In that determination, the Officer found that IFOE was a "commercial use" requester for purposes of assessing fees, and that the fee waiver request should be denied because IFOE's commercial interests outweighed the public interest in release of the requested material. In the Decision, the DOE found that IFOE should be classified as a "representative of the news media" for fee determination purposes. The DOE further concluded that because the commercial interest of a news media requester cannot be taken into account in fee waiver decisions, the Officer's determination cannot be upheld. The DOE therefore remanded the matter to the Ohio Field Office for a new waiver determination.
