

language of the Article to clearly state that transfers of memberships needed to be made pursuant to this Constitutional Article. When the new Rule 1 was being revised, the Board and membership agreed to change the language of Section 1, Article VII. The proposed change was viewed as somewhat confusing by the membership. Consequently, after Board approval and member vote, the Exchange is now proposing to change Article VII so that it clearly states that transfers of membership must comply with the provisions of Article VII in the Constitution.

Basis

Pursuant to Rule 19b-4(e)(3), the proposed rule change is concerned solely with the administration of the Exchange. The proposed rule change is consistent with Section 6(b) of the Act, in general, and Section 6(b)(5), in particular, in that it is designed to promote just and equitable principles of trade because the definitions, reflecting the changes desired by the membership, will be consistent throughout the PCX Constitution and Rules and a membership vote will be necessary to approve any changes to these definitions.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has designated this proposal as concerned solely with the administration of the Exchange under Section 19(b)(3)(A)(iii) of the Act³ and subparagraph (e)(3) of Rule 19b-4,⁴ which renders the proposed rule change effective on July 23, 1997, the date of receipt of this filing by the Commission.

At any time within sixty days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public

interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. People making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. § 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing will also be available for inspection and copying at the PCX's principal offices. All submissions should refer to File No. SR-PCX-97-23 and should be submitted by September 5, 1997.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.⁵

Margaret H. McFarland,

Deputy Secretary.

SUMMARY: In compliance with the Paperwork Act (44 U.S.C. 3501 *et seq.*) this notice announces that the information collection request described below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The FAA issued a final rule on Commercial Passenger-Carrying Operations in Single Engine Aircraft under Instrument Flight Rules on July 31, 1997. The following information describes the nature of the information collection and its expected burden.

With respect to the following collection of information, FAA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of FAA's functions, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
