LPC (P651) requests a five-year permit for takes of juvenile, threatened, central California coast coho salmon (*Oncorhynchus kisutch*) associated with fish population studies on LPC properties in Sonoma and Mendocino County. The studies consist of coho salmon distribution and abundance surveys. ESA-listed juvenile fish are proposed to be captured, anesthetized, handled (identified and measured), allowed to recover from the anesthetic, and released. ESA-listed fish indirect mortalities associated with the research are also requested.

CDFFP (P666) requests a five-year permit for takes of juvenile, threatened, central California coast coho salmon (*Oncorhynchus kisutch*) associated with monitoring projects in coastal streams within the Evolutionarily Significant Unit. The studies consist of coho salmon distribution and abundance surveys. ESA-listed juvenile fish are proposed to be captured, anesthetized, handled (identified and measured), allowed to recover from the anesthetic, and released. ESA-listed fish indirect mortalities associated with the research are also requested.

Those individuals requesting a hearing on either of the requests for a permit should set out the specific reasons why a hearing would be appropriate (see **ADDRESSES**).
