August 25, 1996.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collection pursuant to the

Paperwork Reduction Act of 1995, Pub. L. 96-511. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Notwithstanding any other provisions of law, no person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Questions concerning the OMB control numbers and expiration dates should be directed to Judy Boley, Federal Communications Commission, (202) 418-0214.

OMB Control No.: 3060-0779.

Expiration Date: 8/31/2000.

Title: Amendment to Part 90 of the Commission's Rules to Provide for Use of the 220-222 MHz Band by the Private Land Mobile Radio Service, PR 89-552.

Form No.: N/A.

Estimated Annual Burden: 112,450 annual hours; average 1-50 hours per respondent; 27,062 respondents.

Description: The *Third Report and Order (Third R&O)* adopts rules to govern the future operation and licensing of the 220-222 MHz band (220 MHz service). In establishing this new licensing plan, the Commission's goal is to establish a flexible regulatory framework that will allow for the efficient licensing of the 220 MHz service, eliminate unnecessary regulatory burdens, and enhance the competitive potential of the 220 MHz service in the mobile service marketplace. However, as with any licensing and operational plan for a radio service, a certain number of regulatory burdens are necessary.

The various information reporting and verification requirements, and the requirement that licensees coordinate and provide written consent, concurrence or agreement with other licensees will be used by the Commission to verify licensee compliance with Commission rules and regulation and to ensure that licensees continue to fulfill their statutory responsibilities in accordance with the Communications Act of 1934. Such information has been used in the past and will continue to be used to minimize interference, verify that applicants are legally, technically, and financially qualified to hold licenses, and to determine compliance with Commission Rules.

OMB Control No.: 3060-0481.

Expiration Date: 8/31/2000.

Title: Application for Renewal of Private Radio Station License.

The Wireless Telecommunications Bureau has developed a generic renewal application for electronic filing, FCC Form 900. Once implemented, applicants for renewal of Aviation Ground and Marine Coast licenses will have the option to use FCC Form 452-R or electronically file for renewal using the FCC Form 900. The FCC staff will use the data to determine eligibility for a renewed radio station authorization, and to issue a radio station license. These question pools must be published and made available to the public before the questions are used in an examination. The information maintained by the VEC's is used to prepare amateur examinations. If this information was not maintained the amateur examination program would deteriorate and become outdated. These examinations would not adequately measure the qualifications of the applicants.

The fifth notice of Proposed Rulemaking proposes that this form will be used to complete the disaggregation and partitioning of LMDS. This form may also be used in the future disaggregation and partitioning for a variety of spectrum-based services licensed by the Commission.
