

Office that these human drug products had undergone a regulatory review period and that the approvals of PRELAY™ and REZULIN™ represented the first permitted commercial marketing or use of the products. Shortly thereafter, the Patent and Trademark Office requested that the FDA determine the product's regulatory review period.

FDA has determined that the applicable regulatory review period for PRELAY™ and REZULIN™ is 2,885 days. Of this time, 2,703 days occurred during the testing phase of the regulatory review period, while 182 days occurred during the approval phase. These periods of time were derived from the following dates:

1. *The date an exemption under section 505(i) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(i)) became effective:* March 9, 1989. FDA has verified the applicant's claim that the date that the investigational new drug application became effective was on March 9, 1989.

2. *The date the application was initially submitted with respect to the human drug product under section 505(b) of the Federal Food, Drug, and Cosmetic Act:* August 1, 1996. The applicant claims July 31, 1996, as the date the New Drug Applications (NDA's) for PRELAY™ (NDA 20-719) and REZULIN™ (NDA 20-720) were initially submitted. However, FDA records indicate that NDA's 20-719 and 20-720 were submitted on August 1, 1996.

3. *The date the application was approved:* January 29, 1997. FDA has verified the applicant's claim that NDA's 20-719 and 20-720 were approved on January 29, 1997.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the U.S. Patent and Trademark Office applies several statutory limitations in its calculations of the actual period for patent extension. In its application for patent extension, this applicant seeks 1,534 days of patent term extension.

Anyone with knowledge that any of the dates as published is incorrect may, on or before November 3, 1997, submit to the Dockets Management Branch (address above) written comments and ask for a redetermination. Furthermore, any interested person may petition FDA, on or before March 2, 1998, for a determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must contain sufficient facts to merit an FDA investigation. (See H. Rept. 857,

part 1, 98th Cong., 2d sess., pp. 41-42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Comments and petitions should be submitted to the Dockets Management Branch (address above) in three copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. Comments and petitions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: July 24, 1997.
