#### SUPPLEMENTARY INFORMATION:

**Electronic Availability:** Electronic copies of this document and various support documents are available from the EPA home page at the Federal Register-Environmental Documents entry for this document under "Rules and Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the **Federal Register** of December 11, 1996 (61 FR 65220; FRL-5574-6), which announced that Toagosei Co., Ltd. of Japan, represented by Nichimen America, Inc., 1345 Avenue of the Americas, New York, NY 10105, had submitted an application to register the pesticide product Kaligreen, a fungicide (EPA File Symbol 70231-R), containing the active ingredient potassium bicarbonate at 82 percent, an active ingredient which involves a changed use pattern.

The application was approved on July 31, 1997, as Kaligreen to add to the active ingredients presently registered manufacturing use, a new end use to control powdery mildew on grapes, cucumbers, strawberries, tobacco, and roses (EPA Registration Number 70231-1).

The Agency has considered all required data on risks associated with the proposed use of potassium bicarbonate, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of potassium bicarbonate when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

More detailed information on this registration is contained in an EPA Pesticide Fact Sheet on potassium bicarbonate.

A copy of this fact sheet, which provides a summary description of the pesticides, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Information and Records Integrity Branch, Information Resources and Services Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of

Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

### Workshops on Forward-Looking Cost Mechanisms for Universal Service Support for Non-Rural Carriers, September 3 and September 11, 1997

Released August 28, 1997.

[CC Docket Nos. 96-45 and 97-160]

In the Universal Service Order released May 8, 1997, the Commission, acting on the recommendation of the Federal-State Joint Board, concluded that universal service support for non-rural carriers should be determined by subtracting a benchmark revenue amount from the forward-looking economic cost of providing the supported services.<sup>1</sup> The Commission concluded that it should continue to review two cost models, the Hatfield Model and the Benchmark Cost Proxy Model (BCPM).<sup>2</sup> The Commission further concluded that it would select the platform design features<sup>3</sup> of a
