DEPARTMENT OF LABOR

Employment and Training Administration

JTPA Annual Summary Program Report (JASPR); Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its, continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension collection of the JTPA Annual Summary Program Report (JASPR).

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before November 12, 1997.

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION:

I. Background

Under the Job Training Partnership Act program, Title II-B, the Summer Youth Employment and Training Program, has been established to: (1) Enhance the basic skills of youth; (2) encourage school completion or enrollment in supplementary or alternative school programs; (3) provide eligible youth with exposure to the world of work; and (4) enhance the citizenship skills of youth. The Department of Labor is responsible for overseeing these programs. In order to carry out that responsibility, the Department is extending the reporting requirements and instructions.

II. Current Actions

The Department is requesting to continue reporting of this information on an annual basis. This information will permit the Department to fulfill its oversight requirements as well as to respond to requests from the U.S. Congress, the Administration, the media, and the public for program information.

DEPARTMENT OF LABOR

Employment Standards Administration

Wage and Hour Division; Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue

current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, N.W., Room S-3014, Washington, D.C. 20210.

NUCLEAR REGULATORY COMMISSION

The Cleveland Electric Illuminating Company, the Toledo Edison Company, Duquesne Light Company, Ohio Edison Company, and Pennsylvania Power Company, Beaver Valley Power Station, Unit Nos. 1 and 2; Notice of Consideration of Approval of Application Regarding Proposed Corporate Restructuring

Notice is hereby given that the United States Nuclear Regulatory Commission (the Commission) is considering approval by issuance of an order under 10 CFR 50.80 of an application concerning a proposed merger between DQE, Inc. and Allegheny Power System, Inc. (Allegheny Power). DQE, Inc. is the parent holding company of Duquesne Light Company (DLC), which holds licenses to possess interests in and to use and operate Beaver Valley Power Station, Unit Nos. 1 and 2 (BVPS-1 and BVPS-2). The Cleveland Electric Illuminating Company, The Toledo Edison Company, and Ohio Edison Company and its subsidiary Pennsylvania Power Company also hold licenses to possess interests in the Beaver Valley Power Station, but are not involved in the proposed merger. By letter dated August 1, 1997, the Commission was informed that DQE, Inc., and Allegheny Power have entered into a merger agreement in which DQE, Inc., will become a wholly owned subsidiary of Allegheny Power. Allegheny Power will be renamed Allegheny Energy, Inc.

According to the application, the merger will have no effect on the operation of BVPS-1 and BVPS-2, or the provisions of their operating licenses. The Cleveland Electric Illuminating Company, The Toledo Edison Company, Ohio Edison Company, and Pennsylvania Power Company will remain licensees responsible for their possessory interests and related obligations. DLC will continue to operate BVPS-1 and BVPS-2 after the merger, as required by the

operating license. No direct transfer of the license will result from the merger.

Pursuant to 10 CFR 50.80, the Commission may consent to the transfer of control of a license after notice to interested persons. Such consent is contingent upon the Commission's determination that the holder of the license following the transfer is qualified to hold the license and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders of the Commission.

For further details with respect to this proposed action, see the application from DLC dated August 1, 1997. The August 1, 1997, application is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC 20555, and at the local public document room located at the B.F. Jones Memorial Library, 663 Franklin Avenue, Aliquippa, PA 15001.

Dated at Rockville, Maryland, this 4th day of September 1997.

For the Nuclear Regulatory Commission.

Donald S. Brinkman,

Senior Project Manager, Project Directorate I-2, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-341]

Detroit Edison Company; Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. NPF-43, issued to the Detroit Edison Company (DECo or the licensee), for operation of the Enrico Fermi Atomic Power Plant Unit 2 (Fermi 2) located in Monroe County, Michigan. This action is in response to the licensee's application dated September 5, 1997.

The proposed amendment would add Special Test Exception 3/4.10.7, "Inservice Leak and Hydrostatic Testing," that allows the performance of pressure testing at a reactor coolant temperature up to 212 °F while remaining in Operational Condition 4. This special test exception would also require that certain Operational Condition 3 specifications for
