M200 Periodicals (Nonautomation)

1.0 BASIC STANDARDS

* * * * *

1.5 Low-Volume Packages and Sacks

As a general exception to 2.4b through 2.4d and 3.1a through 3.1e, non-letter-size Periodicals may be prepared in packages containing fewer than six pieces, and in sacks containing as few as one such package, when the publisher determines that such preparation improves service. These low-volume packages may be placed on 5-digit, 3-digit, and SCF pallets under M045.

1.6 Optional SCF Sack

Mailers of non-letter-size Periodicals have the option to prepare an SCF sack level. If mailers choose to prepare SCF sacks, they must prepare them for all SCF destinations in the mailing for which there are 24 or more pieces prepared in 5-digit or 3-digit packages, under 3.1. When SCF sacks are

prepared, required origin/optional entry 3-digit sacks must not be prepared and required origin/optional entry SCF sacks must be prepared.

3.0 SACK PREPARATION (FLAT-SIZE PIECES AND IRREGULAR PARCELS)

3.1 Sack Preparation

[Redesignate current 3.1e and 3.1f as 3.1f and 3.1g respectively; insert new 3.1e to read as follows:]

Sack size, preparation sequence, and Line 1 labeling:

* * * * *

e. Optional SCF: required at 24 pieces (no minimum for required origin/optional entry SCF), optional with one six-piece package minimum except under 1.5; for Line 1, use L002, Column C.

* * * * *

M820 Flat-Size Mail

1.0 BASIC STANDARDS

* * * * *

1.7 Exception-Periodicals

As a general exception to 3.1a, 3.1b, and 3.2a through 3.2c, Periodicals may be prepared in packages containing fewer than six pieces, and in sacks containing as few as one such package, when the publisher determines that such preparation improves service. These low-volume packages may be placed on 5-digit, 3-digit, and SCF pallets under M045.

1.8 Optional SCF Sack—Periodicals

Mailers of Periodicals have the option to prepare an SCF sack level. If mailers choose to prepare SCF sacks, they must prepare them for all SCF destinations in the mailing for which there are 24 or more pieces prepared in 5-digit or 3-digit packages, under 3.2. When SCF sacks are prepared, required origin/optional entry 3-digit sacks must not be prepared and required origin/optional entry SCF sacks must be prepared.

* * * * *

3.0 PERIODICALS

* * * * *

3.2 Sack Preparation

[Renumber 3.2c and 3.2d as 3.2d and 3.2e respectively; add new 3.1c to read as follows:]

Sack size, preparation sequence, and Line 1 labeling:

* * * * *

c. Optional SCF: required at 24 pieces (no minimum for required origin/optional entry SCF), optional with one six-piece package minimum except

under 1.7; for Line 1, use L002, Column C.

* * * * *

An appropriate amendment to 39 CFR 111.3 to reflect these changes will be published if the proposal is adopted.

Stanley F. Mires,

Chief Counsel, Legislative.

[FR Doc. 97-24306 Filed 9-12-97; 8:45 am]

BILLING CODE 7710-12-P

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-7227]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Frederick H. Sharrocks, Jr., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street SW., Washington, DC 20472, (202) 646-2796.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria

required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act.

The Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform.

This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq.; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified
Florida	Stuart (City) Martin County.	St. Lucie River	Approximately 200 feet east of the intersection of U.S. 1 and Fern Avenue.	*6	*10

[DFARS Case 97-D005]

Defense Federal Acquisition Regulation Supplement; Central Contractor Registration

AGENCY: Department of Defense (DoD).

ACTION: Proposed rule with request for comments.

SUMMARY: The Director of Defense Procurement is proposing to amend the Defense Federal Acquisition Regulation Supplement (DFARS) to require contractor registration in the DoD Central Contractor Registration database prior to award of any contract, basic agreement, basic ordering agreement, or blanket purchase agreement, unless the award results from a solicitation issued on or before March 31, 1998.

DATES: Comment date: Comments on the proposed rule should be submitted in writing to the address shown below on or before November 14, 1997 to be considered in the formulation of the final rule.

ADDRESSES: Interested parties should submit written comments to: Defense

Acquisition Regulations Council, Attn: Ms. Sandra G. Haberlin, PDUSD (A&T) DP (DAR), IMD 3D139, 3062 Defense Pentagon, Washington, DC 20301-3062. Telefax number (703) 602-0350.

E-mail comments submitted over the Internet should be addressed to: dfars@acq.osd.mil

Please cite DFARS Case 97-D005 in all correspondence related to this issue. E-mail correspondence should cite DFARS Case 97-D005 in the subject line.

FOR FURTHER INFORMATION CONTACT: Ms. Sandra G. Haberlin, (703) 602-0131.

SUPPLEMENTARY INFORMATION:

A. Background

The President's Executive memorandum, Streamlining Procurement through Electronic Commerce, dated October 26, 1993, directed Federal Government agencies to streamline and simplify procurement through use of electronic commerce. To achieve this goal, the final report, Streamlining Procurement through Electronic Commerce, dated October 13, 1994, was issued to define the Government's electronic commerce architecture and implementation plan. This plan includes centralizing electronic commerce registration; collecting business information, including procurement data, from each contractor into a database at the time of registration; and adopting the Data Universal Numbering System (DUNS) number as the industry-standard Governmentwide company identifier code.

In addition, the Debt Collection Improvement Act of 1996 (Section 31001 of Public Law 104-134) was enacted on April 26, 1996. Subsection 31001(i) amends 31 U.S.C. 7701 by requiring each contractor doing business with the Government to furnish its taxpayer identification number (TIN). Subsection 31001(x) amends 31 U.S.C. 3332 by requiring, with few exceptions, that payments be made by electronic fund transfer (EFT).

This proposed rule requires contractor registration in a DoD Central Contractor Registration (CCR) database prior to award of a contract, basic agreement, basic ordering agreement, or blanket purchase agreement, unless the award results from a solicitation issued on or before March 31, 1998. The rule requires that contractors register on a one-time basis, and confirm on an annual basis that their CCR registration is accurate and complete. The objectives of this rule are (1) to more efficiently comply with Public Law 104-134 by using a central DoD repository to collect statutorily required TINs and EFT information; (2) to simplify and streamline procurement by presenting "one DoD face to industry," and, thereby, eliminating duplicate requirements and processes; and (3) to increase visibility of vendor sources for specific supplies and services.

The following CCR Application Form illustrates the data that contractors will be required to provide in order to register in the CCR:
