**DEPARTMENT OF DEFENSE****Department of the Navy****Notice of Public Hearing for the Draft Environmental Impact Statement/Environmental Impact Report for the Disposal and Reuse of Certain Real Properties at Naval Training Center, San Diego, CA**

**SUMMARY:** Pursuant to the Council on Environmental Quality regulations (40 CFR Parts 1500-1508) implementing the procedural provisions of the National Environmental Policy Act, and pursuant to the California Environmental Quality Act (California Public Resources Code Section 21000, *et seq.*), the Department of the Navy and the City of San Diego have prepared and filed with the U.S. Environmental Protection Agency a joint Draft Environmental Impact Statement/Environmental Impact Report (DEIS/EIR) for the disposal and reuse of certain real properties at Naval Training Center (NTC), San Diego, California.

A Notice of Intent (NOI) for the DEIS/EIR was published in the **Federal Register** on 15 May 1996. A public scoping meeting for the proposed project was held on 11 June 1996 at Naval Training Center, San Diego, California.

Under the Defense Base Closure and Realignment Act of 1990, the 1993 Defense Base Closure and Realignment commission recommended that NTC San Diego be closed as part of the nationwide military force reduction. The proposed federal action involves the disposal of land, buildings, and infrastructure of NTC San Diego for subsequent reuse. Since 1993, when the federal Base Closure and Realignment process directed closure of NTC San Diego, the City of San Diego and the NTC Reuse Planning Committee have been involved in a process to determine how the military base could be used. The Department of the Navy recognizes the San Diego City Council as the local reuse authority.

The environmental effects of five conceptual land use development alternatives (reuse alternatives) and the No-Action Alternative have been evaluated in the DEIS/EIR. Each of the alternatives evaluates proposed uses for approximately 429 acres of NTC San Diego considered "surplus" and subject to the disposal and reuse action. Proposed land uses include: residential; educational (reuse of and new classroom and laboratory facilities); active and passive recreational open space (e.g., trail and open space along the existing boat channel, park land, and reuse of the golf course); and retail and cultural uses, galleries, and exhibit space in the historic core of the site. Other alternative land uses being considered include airport expansion, hotel development, and a public safety institute.

No decision on the proposed action will be made until the National Environmental Policy Act process has been completed.

The DEIS/EIR has been distributed to various federal, state, and local agencies, local groups, elected officials, special interest groups, and individuals. The DEIS/EIR is available for review at the following libraries:

- City of San Diego Central Library, 820 E Street, San Diego, CA 92101
- City of San Diego Public Library, Ocean Beach Branch, 4801 Santa Monica Ave., San Diego, CA 92107
- City of San Diego Public Library, Point Loma Branch, 2130 Poinsettia Dr., San Diego, CA 92107
- Pacific Beach Public Library, 4275 Cass Street, San Diego, CA 92109.

**ADDRESSES:** The Navy will conduct a public hearing on Tuesday, September 30, 1997, at 7:00 p.m., at the Naval Training Support Center, Building 623, Naval Training Center, San Diego, California to inform the public of the Draft EIS/EIR findings and to solicit comments. Federal, state and local agencies, and interested individuals are invited to be present or represented at the hearing. Oral comments will be heard and transcribed by a stenographer. To assure accuracy of the record, all comments should be submitted in writing. All comments, both oral and written, will become part of the public record in the study. In the interest of available time, each speaker will be asked to limit oral comments to five minutes. Longer comments should be summarized at the public hearing and submitted in writing either at the hearing or mailed to the address listed below.

**FOR FURTHER INFORMATION CONTACT:** Please provide your written comments by October 14, 1997 to Mr. Robert Montana, Southwest Division, Naval Facilities Engineering Command, 1420 Kettner Boulevard, Suite 501, San Diego, California 92101-2040, telephone (619) 532-2004 ext. 43, fax (619) 532-2075; or Mr. Scott Vurbeff, City of San Diego, 202 C Street, San Diego, California 92101, telephone (619) 236-6947, fax (619) 236-6620.
