ENVIRONMENTAL PROTECTION AGENCY

Termination of Pesticide Producing Establishment's Registration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This document announces the Agency's intention to terminate a number of pesticide producing establishment registrations 60 days following the date of publication of this document for failure to file annual pesticide production reports as required by section 7 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

DATES: The list of domestic and foreign pesticide producing establishments appearing in this document will have their establishment registration terminated on November 17, 1997.

FOR FURTHER INFORMATION CONTACT:

Domestic pesticide producing establishments should contact the EPA Regional office having jurisdiction for the state where their parent company is located. A listing of the EPA Regional offices is included in this document. Foreign pesticide producing establishments should contact: Carol L. Buckingham, United States Environmental Protection Agency, Office of Enforcement and Compliance Assurance, Agriculture and Ecosystems Division (2225A), 401 M Street, SW, Washington, DC 20460 USA, telephone: 202-564-5008; Fax: 202-564-0085; e-mail: buckingham-carol@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Section 7 of FIFRA requires that all establishments that produce any pesticide or active ingredient used in producing a pesticide, or device subject

to this Act be registered with the Agency, and that all such establishments submit annual production reports to the Agency. The EPA regulations at 40 CFR part 167 establish requirements concerning these annual reports and the information that must be in annual reports (40 CFR 167.85). The regulations state that establishment registrations will be subject to termination if an annual report is not submitted (40 CFR 167.20(f)).

Notwithstanding the requirements identified above, no annual production reports were received from the establishments identified in this document in either 1996 or 1997. In addition, during the week of December 9-13, 1996, pesticide production reporting forms were mailed by first class mail to each parent company having responsibility for active pesticide producing establishments, including the companies identified in this document. The mailings sent to the last reported address of the companies identified in this document were returned unopened to the Agency, with indications of "undeliverable" or "address unknown" as the reason for the return. Subsequent attempts to locate a number of the identified companies and establishments were unsuccessful. The Agency is therefore hereby terminating, without further notice, the registrations of the identified establishments pursuant to 40 CFR 167.20(f) for failure to submit the annual reports in 1996 and 1997.

Following termination of each domestic pesticide producing establishment's registration, sale or distribution in the United States of any pesticide product produced in an establishment subsequent to the termination of that establishment's registration will be considered unlawful and a violation of section 12 of FIFRA, punishable by civil and criminal penalties. This document will not preclude the Agency from seeking other appropriate remedies necessary for compliance with FIFRA.

Following termination of each foreign pesticide producing establishment's registration, no pesticide product produced in that establishment may be imported into the United States.
