14 CFR Part 71

[Airspace Docket No. 97-ASO-1]

Amendment to Class D Airspace; Miami Opa Locka Airport, FL

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment modifies the Class D airspace description at Miami Opa Locka Airport, FL. As a result of an amendment to Class D airspace at Hollywood, FL, effective March 27, 1997, a technical amendment to the Miami Opa Locka Airport, FL, Class D airspace is necessary to reflect the modification to the Class D airspace at Hollywood, FL.

EFFECTIVE DATE: 0901 UTC, March 27, 1997.

FOR FURTHER INFORMATION CONTACT: Benny L. McGlamery, Operations Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305-5570.

SUPPLEMENTARY INFORMATION:

History

The Class D airspace at Hollywood, FL, is amended effective March 27, 1997, to accommodate a GPS RWY 9R Standard Instrument Approach Procedure (SIAP) at North Perry Airport. The radius of the Class D airspace at Hollywood, FL, is a reference point in the Class D airspace description for Miami Opa Locka Airport, FL. Therefore, a technical amendment to the Class D airspace description for the Miami Opa Locka Airport, FL, is

necessary. This action will have no impact on the users of the airspace in the vicinity of the airport. This rule will become effective on the date specified in the **DATES** section. Since this action only makes a technical amendment to the Class D airspace, which has no impact on users of the airspace in the vicinity of the Miami Opa Locka Airport, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR part 71) modified the Class D airspace description at Miami Opa Locka Airport, FL, to reflect the amendment to the Class D airspace at Hollywood, FL.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR Part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR Part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9D, Airspace Designations and Reporting Points, dated September 4, 1996, and effective September 16, 1996, is amended as follows:

SUPPLEMENTARY INFORMATION:
History

On November 27, 1996, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by modifying Class E airspace at Tampa, FL (61 FR 60239). This action would provide adequate Class E airspace for IFR operations at Clearwater Air Park, Clearwater, FL.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Designations for Class E airspace extending upward from 700 feet or more above the surface are published in Paragraph 6005 of FAA Order 7400.9D dated September 4, 1996, and effective September 16, 1996. The Class E airspace designation listed in this document will be published subsequently in the Order.
