College and University Affiliations Program (CUAP)

ACTION: Notice—requests for proposals.

SUMMARY: The Office of Academic Programs of the United States Information Agency's Bureau of Educational and Cultural Affairs announces an open competition for an assistance award program. Accredited, post-secondary educational institutions meeting the provisions described in IRS regulation 26 CFR 1.501(c) may apply to develop a partnership with (a) foreign institution(s) of higher education in specified fields and themes within the humanities, social sciences, business, and environmental studies.

Subject to the availability of funding, awards will be made to support free trade and market economies, and/or the environment and sustainable development.

A second Request for Proposals in this issue of the **Federal Register** solicits proposals in support of democratic institution-building and/or civic education.

Grants are subject to the availability of funds for Fiscal Year 1998.

Proposed projects must be eligible in terms of country(ies)/localities and themes as described in the section entitled "Eligibility" below.

Participating institutions exchange faculty and administrators for a combination of teaching, lecturing, faculty and curriculum development, collaborative research, and outreach, for periods ranging from one week (for planning visits) to an academic year. The FY 98 program will also support the establishment and maintenance of Internet and/or e-mail communication facilities as well as interactive distance learning programs at foreign partner institutions. Applicants may propose other project activities not listed above that are in keeping with the goals and activities of the College and University Affiliations Program.

The program awards up to \$120,000 for a three-year period to defray the cost of travel and per diem with an allowance for educational materials and some aspects of project administration. Grants awarded to organizations with less than four years of experience in conducting international exchange programs will be limited to \$60,000.

Overall grant-making authority for this program is contained in the Mutual Education and Cultural Exchange Act of 1961, Public Law 87-256, as amended, also known as the Fulbright-Hays Act. The purpose of the Act is "to enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries * * * to strengthen the ties which unite us with other nations by demonstrating the educational and cultural interests,

developments, and achievements of the people of the United States and other nations * * * and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and the other countries of the world." The funding authority for the program cited above is provided through the *Fulbright-Hays Act*.

Projects must conform with Agency requirements and guidelines outlined in the Solicitation Package. The POGI, a document describing College and University Affiliation Project Objectives, Goals, and Implementation, is included in the Solicitation Package.

This material must be provided in ASCII text (DOS) format with a maximum line length of 65 characters. USIA will transmit these files electronically to U.S. Information Service (USIS) posts overseas for their review, with the goal of reducing the time it takes to get posts' comments for the Agency's grant review process.

Diversity, Freedom and Democracy Guidelines

Pursuant to the Bureau's authorizing legislation, projects must maintain a non-political character and should be balanced and representative of the diversity of American political, social, and cultural life. "Diversity" should be interpreted in the broadest sense and encompass differences including, but not limited to ethnicity, race, gender, religion, geographic location, socio-economic status, and physical challenges. Applicants are strongly encouraged to adhere to the advancement of this principle both in program administration and in program content. Please refer to the review criteria under the "Support for Diversity" section for specific suggestions on incorporating diversity into the total proposal. Public Law 104-319 provides that "in carrying out programs of educational and cultural exchange in countries whose people do not fully enjoy freedom and democracy," USIA "shall take appropriate steps to provide opportunities for participation in such programs to human rights and

democracy leaders of such countries." Proposals should account for advancement of this goal, in their program contents, to the full extent deemed feasible.

Eligible Theme, Academic Disciplines, and Countries/Localities

This request for proposals is limited to support for free trade and market economies and/or environment and sustainable development.

Please note the following explanatory details:

A. Eligible Academic Disciplines and Countries/Localities

Eligible academic disciplines and countries and localities are listed under each theme. Only those countries or localities and partnership configurations identified under each theme qualify. Specifics should be examined carefully before proposal preparation.

B. Inclusion of Area Studies

Area Studies are included as academic disciplines to engender a broader cultural understanding and context in which to pursue a linkage project within the stated theme. Area Studies may be incorporated into a given project but only in conjunction with one or more of the other academic disciplines listed under the theme. Area Studies includes U.S. and partner country history, literature, and social sciences.

C. Bilateral Projects—Except for NEA and APEC Trilateral Linkages

In most instances, the program invites proposals for bilateral projects only, involving the U.S. and one foreign country (as specified) only. The only exceptions are North Africa, Near East, and South Asia (NEA) and Asia Pacific Economic Cooperation member nation trilateral linkages.

Eligible Theme

Support of free trade and market economies and/or the environment and sustainable development.

Under this theme, projects are solicited which promote higher

education's role in economic development and the development of market economies, trade, investment overseas, through faculty and curriculum development, teaching and lecturing, and outreach. Projects which also focus on the environment should address the public policy aspects of sustainable development.

Affiliation projects in trade and economics are expected to establish or expand mutually beneficial academic programs in business and economics, and to promote international investment by strengthening institutional links to the private sector. Where possible, such affiliations should contribute to the formulation of more open and responsible trade policy. Where appropriate and relevant, plans and anticipated outcomes of these affiliation projects should reflect responsible stewardship of the environment. Business/economics/trade projects with the potential for having an adverse impact on the environment will have a low priority.

Environment/sustainable development projects should address environmental issues having an impact on U.S. and global interests. Such affiliation projects should help establish or expand environmental policy studies programs through faculty and curriculum development, teaching and lecturing, and outreach. For the designated countries listed below, projects are encouraged which link the study of free trade and market economies with the environment and sustainable development.

Whenever feasible, participants involved in either trade/economics policy projects or international environmental policy studies projects should make their training and personnel resources, as well as results of their collaborative research, available to government, NGOs, and business.

Eligible Academic Disciplines

Business/Business Administration/
Business Management
International Marketing/International Trade
Commercial Law (including Comparative Law, International Treaties, Intellectual Property Rights)

International Visitor Program

ACTION: Notice—Request for Proposals.

SUMMARY: The Office of International Visitors (E/V) of the United States Information Agency's Bureau of Educational and Cultural Affairs announces a competition for an assistance award. Public and Private nonprofit organizations *not* currently receiving Office of International Visitors assistance awards and meeting the provisions described in IRS regulation 26 CFR 1.501(c) may apply to develop programming for projects of one to twenty-five International Visitors nominated by U.S. Embassies abroad.

The intent of this announcement is to attract new organizations to the International Visitor (IV) programming process. USIA is seeking new organizations to provide diversity and an infusion of program experience to the IV program. The winning applicant will function as a national programming agency and will work closely with USIA staff members who will guide and mentor the applicant through procedural, budgetary or programmatic issues as they arise in a variety of International Visitor projects. This experience is expected to build the selected organization's capacity to compete for a continuing grant in IV project administration.
