SUPPLEMENTARY INFORMATION:

I. Abstract

The Bureau of the Census produces statistics used to monitor activity in the large and dynamic construction industry. Given the importance of this industry, several of the statistical series are key economic indicators. Two such series are (a) Housing Units Authorized by Building Permits and (b) Housing Starts. Both are based on data from samples of permit-issuing places. These statistics help state and local governments and the Federal Government, as well as private industry, to analyze this important sector of the economy.

The Bureau of the Census uses Form C-404 to collect data to provide estimates of the number and valuation of new residential housing units authorized by building permits. We use the data, a component of the index of leading economic indicators, to estimate the number of housing units started, completed, and sold, if single-family, and to select samples for the Census Bureau's demographic surveys. Policymakers, planners, businessmen/women, and others use the detailed geographic data collected from state and local officials on new residential construction authorized by building permits to monitor growth and plan for local services, and to develop production and marketing plans. The Building Permits Survey is the only source of statistics on residential construction for states and smaller geographic areas.

We are making the following changes to the form:

- a. No longer collect data on publicly-owned construction authorized by building permits because we no longer need these data.
- b. Combined two separate items, single-family houses attached and single-family houses detached, into one item because we no longer needed to collect these data separately.
- c. We deleted one question, "Are you aware of any new permit-issuing jurisdictions?" because we no longer need this information.

We will collect data for new residential nonhousekeeping buildings; new nonresidential buildings; additions, alterations, and conversions; and demolitions and razing of buildings only through a reimbursable agreement.

If we do not get that agreement, we will collect data for only new privately-owned residential buildings authorized by building permits.

II. Method of Collection

We collect this information by mail and electronically through files we download or receive on diskettes.

Monthly, we collect this information by mail for 8,170 permit-issuing jurisdictions and electronically for 550 jurisdictions. Annually, we collect this information by mail for 10,180 jurisdictions.

III. Data

OMB Number: 0607-0094.

Form Number: C-404.

Type of Review: Regular submission.

Affected Public: State and local governments.

Estimated Number of Respondents: 18,900.

Estimated Time Per Response: 16 minutes for monthly respondents who report by mail, 3 minutes for monthly respondents who report electronically, and 25 minutes for annual respondents who report by mail.

Estimated Total Annual Burden Hours: 30,716.

Estimated Total Annual Cost: We estimate that the cost to the respondents to provide the data will be \$438,636 based on an average hourly salary of \$14.65¹ for state and local government employees.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Section 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Bureau of the Census produces statistics used to monitor activity in the large and dynamic construction industry. These statistics help state and local governments and the Federal Government, as well as private industry, to analyze this important sector of the economy. The accuracy of the Census Bureau statistics regarding the amount of construction authorized depends on data supplied by building and zoning officials throughout the country.

The Bureau of the Census uses Form C-411 to obtain information from state and local building permit officials needed for updating the universe of permit-issuing places. The questions pertain to the legal requirements for issuing building or zoning permits in

the local jurisdictions. Information is obtained on such items as geographic coverage and types of construction for which permits are issued.

The universe of permit-issuing places is the sampling frame for the Building Permits Survey (BPS) and the Survey of Construction. These two sample surveys provide widely used measures of construction activity, including the economic indicators, Housing Units Authorized by Building Permits and Housing Starts.

We made the following changes to the form:

a. We deleted two questions:

- (1) "What kind of permits does your office issue?" and
- (2) "When did your government first begin issuing permits?"

The first question asked for the same information as another question. We no longer need the information requested in the second question.

b. We added two questions:

- (1) "If the jurisdiction listed in Section A.1 is a county, does your office issue permits for portions of jurisdictions located in other counties?" and
- (2) "If the jurisdiction listed in Section A.1 is a city, town, village, borough or township, is it in more than one county?"

We need the above information to ensure that we update our universe of permit-issuing places correctly for these types of places.

We will request information about permits issued for new residential nonhousekeeping; new nonresidential building; additions, alterations, and conversions; and demolitions and razing of buildings only through a reimbursable agreement. If we do not get that agreement, we will only collect information about permits issued for new residential buildings.

II. Method of Collection

The form is sent to a jurisdiction when the Census Bureau has reason to believe that a new permit system has been established or an existing one has changed, based on information from a variety of sources including survey respondents, regional councils and Census' Geography Division which keeps abreast of changes in corporate status. Responses typically approach 100 percent.

III. Data

OMB Number: 0607-0350.

Form Number: C-411.

Type of Review: Regular submission.

Affected Public: State and Local Governments.

Estimated Number of Respondents: 2,000 per year.

Estimated Time Per Response: 15 minutes.

Estimated Total Annual Burden Hours: 500 hours.

Estimated Total Annual Cost: The cost to the respondents is estimated to be \$7,325 based on an average hourly salary of \$14.65¹ for state and local government employees.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 USC Section 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
