FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act. Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than November 10, 1997.

A. Federal Reserve Bank of Chicago (Philip Jackson, Applications Officer) 230 South LaSalle Street, Chicago, Illinois 60690-1413:

1. *Fidelity Ban Corporation*, Independence, Iowa; to acquire 100 percent of the voting shares of Benton County Savings Bank, Norway, Iowa.

Board of Governors of the Federal Reserve System, October 10, 1997.

FEDERAL TRADE COMMISSION

Submission for OMB Review; Comment Request

AGENCY: Federal Trade Commission.

ACTION: Submission for OMB review; comment request.

SUMMARY: The FTC has submitted information collection requirements associated with the Alternative Fuel Rule, 16 CFR part 309, to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520). On July 25, 1997, the FTC solicited comments from the public concerning these information collection requirements, and provided the information specified in 5 CFR 1320.5(a)(1)(iv). 62 FR 40089. No comments were received. The current OMB clearance for these requirements expires on November 30, 1997. The FTC has requested that OMB extend the PRA clearance through November 30, 2000.

DATES: Comments must be filed by November 17, 1997.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 3228, Washington, D.C. 20530, ATTN: Edward Clarke, Desk Officer for the Federal Trade Commission. Comments may also be sent to Elaine W. Crockett, Attorney, Office of the General Counsel, Room 598, 6th St. and Pennsylvania Ave., N.W. 20580, telephone: (202) 326-2453; fax: (202) 326-2477; e-mail ecrockettftc.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed extensions of the information requirements should be addressed to Elaine W. Crockett at the address listed above.

SUPPLEMENTARY INFORMATION: *Title:* Alternative Fuel Rule, 16 CFR part 309—(OMB Control Number 3084-0094)—Extension. On May 9, 1995, the Commission issued the Alternative Fuel Rule, which requires disclosure of specific information on labels posted on fuel dispensers for non-liquid alternative fuels, and on labels on alternative fueled vehicles (AFVs). To ensure the accuracy of the labeling disclosures, the Rule also requires that sellers maintain records substantiating the product-specific disclosures that they include on these labels. The labeling requirements provide consumers with reliable and comparable information about the fuel ratings of similar types of fuel and alternative fueled vehicles. The primary purpose of the recordkeeping requirements is to preserve evidence of compliance with the Rule.

Burden statement: The Rule, which primarily establishes fuel rating determination, certification, labeling, and recordkeeping requirements, imposes burden on the alternative vehicle fuel industry and the alternative fuel vehicle manufacturing industry. When the Rule was issued in 1995, the FTC found that the non-liquid alternative vehicle fuel industry consisted of approximately 1,600 members, of which approximately 1,300 import, produce, refine, distribute or retail compressed natural gas to the public for use in alternative fueled vehicles. The FTC also estimated that approximately 50 industry members manufacture or distribute electric vehicle fuel dispensing systems and that no more than 250 companies retail electricity to the public through electric vehicle fuel dispensing systems. As to the alternative fueled vehicle industry, the FTC found that approximately 58 companies manufactured such vehicles and were subject to labeling and

recordkeeping requirements. Staff at the Department of Energy inform us that the current numbers for both industries are approximately the same as they were in 1995.

1995 Non-Liquid Alternative Fuel Burden Hour Estimates

Determination and Certification: In 1995, staff estimated that the Rule's fuel rating determination requirements and the Rule's fuel rating certification requirements would affect approximately 350 industry members which produce natural gas and distribute and manufacture electric vehicle fuel dispensing systems. *Labeling:* Staff also estimated that labeling requirements would affect approximately nine of every ten industry members (or 1,400 members), but the number of affected members would decrease in subsequent years because labels may remain effective for several years. *Recordkeeping:* Staff estimated that all 1,600 industry members would be subject to the Rule's recordkeeping requirements.

1995 Alternative Fueled Vehicle Burden Hour Estimates

Labeling: Producing: In 1995, staff estimated that there were approximately 350,000 AFVs, consisting of 36 models. Staff rounded the number of models to 40 to allow for the introduction of new AFV models into the marketplace. Further, staff estimated 2.5 hours as the average time required to produce labels for each of the 40 models. *Labeling: Posting:* Staff estimated the average time to comply with the posting requirements to be 2 minutes for each of the 350,000 vehicles. *Recordkeeping:* Staff estimated that all 58 manufacturers would require 30 minutes to comply with the Rule's recordkeeping requirements. Accordingly, in 1995, burden hours were calculated as follows:

Fuel Rating Determination: 2 hours x 350 industry members = 700 burden hours.

Fuel Rating Certification: 24 hours x 350 industry members = 8,400 burden hours.

Labeling: 1 hour x 1,400 industry members = 1,400 burden hours.

Recordkeeping associated with fuel rating determination and certification: 6 minutes x 1,600 industry members = 160 hours.

AFV labeling: producing: 2.5 hours x 40 models = 100 burden hours; *posting:* 2 minutes x 350,000 AFVs = 11,667 burden hours; *recordkeeping:* 30 minutes x 58 industry members = 29 burden hours.

Total 1995 burden hours: 22,500 (rounded).

1997 Burden Hour Estimates

In 1997, all of the requirements related to the processes involved in fuel rating determination, certification, labeling, and recordkeeping remain the same. We have, however, reduced the 1995 total burden estimate of 22,500 hours because, as stated in the original application for PRA clearance, it is now and always has been, common practice for industry members to determine and monitor fuel ratings in the normal course of their business activities. This is because industry members must know and determine the fuel ratings of their products in order to monitor quality and to decide how to market them. "Burden" for OMB purposes is defined to exclude effort that would be expended regardless of any regulatory requirement 5 CFR 1320.2(b)(2).

One-time letters of certification or the use of permanent marks or labels on electric vehicle fuel dispensing systems may be used once and thereafter remain in effect for several years. Also, the specifications for labels were designed to produce a label that would withstand the elements for several years. Nonetheless, there is still some burden associated with producing, distributing, posting, and maintaining new labels. There also will be some burden associated with new or revised certification of fuel ratings. The burden on vehicle manufacturers will be less because label production will be needed for only a few models and because only newly-manufactured vehicles will require label posting. Accordingly, we have calculated the revised burden hour estimates as follows:

(Fuel Rating Determination numbers are no longer applicable because these numbers are no longer associated with start-up costs and are determined during the ordinary course of business).

Fuel Rating Certification: 1 hour x 350 industry members = 350 burden hours.

Labeling: 1 hour x 280 industry members = 280 burden hours. (This calculation assumes that only 20% of 1,400 industry members will be affected because it is unnecessary to replace labels each year.)

Recordkeeping associated with fuel rating determination and certification: 6 minutes x 1,600 industry members = 160 burden hours.

AFV labeling: producing: 2.5 hours x 5 new models per year = 12.5 burden hours; *posting:* 2 minutes x 20,000 new AFVs per year = 667 burden hours. (The number of new AFVs per year was determined after discussions with staff at the Department of Energy.);

recordkeeping: 30 minutes x 58 industry members = 29 burden hours.

Total 1997 burden hours: approximately 1,500 (rounded).

To re-emphasize, the FTC is not amending, nor is it in the process of amending, the Alternative Fuel Rule. The burden hours associated with the Rule have been recalculated because, as originally anticipated when the Rule was promulgated in 1995, many of the information collection requirements collection requirements and the originally-estimated hours were associated with one-time start up tasks of implementing standard systems and processes. In addition, the FTC has reduced the estimated burden hours because the industry complies with many of these requirements in the ordinary course of business and, as stated above, the definition of "burden" excludes effort that would be expended regardless of any regulatory requirement. 5 CFR 1320.2(b)(2).

Debra A. Valentine,
General Counsel.

Hospital Infection Control Practices Advisory Committee Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following meeting.

Name: Hospital Infection Control Practices Advisory Committee (HICPAC).

Times and Dates: 8:30 a.m.-5 p.m., November 17, 1997 and 8:30 a.m.-1 p.m., November 18, 1997.

Place: Centers for Disease Control and Prevention, Building 16, Room 1107/1107A, 1600 Clifton Road, NE, Atlanta, Georgia 30333.

Status: Open to the public, limited only by the space available. In addition to the Committee, the room will accommodate approximately 25 guests.

Purpose: The Committee is charged with providing advice and guidance to the Secretary, the Assistant Secretary for Health, the Director, CDC, and the Director, National Center for Infectious Diseases (NCID), regarding (1) the practice of hospital infection control; (2) strategies for surveillance, prevention, and control of nosocomial infections in U.S. hospitals; and (3) updating

guidelines and other policy statements regarding prevention of nosocomial infections.

Matters to be Discussed: Agenda items will include an overview of Strategic Direction of HICPAC; a review of the public response to the Draft Guideline for Infection Control in Hospital Personnel; a review of the second draft of the Guideline for Prevention of Surgical Site Infections; and a review of CDC activities of interest to the Committee.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Michele L. Pearson, M.D., Medical Epidemiologist, Investigation and Prevention Branch, Hospital Infections Program, NCID, CDC, 1600 Clifton Road, NE, M/S E-69, Atlanta, Georgia 30333, telephone 404/639-6413.

Dated: October 8, 1997.

Notice of Meeting

The National Center for Environmental Health (NCEH) of the Centers for Disease Control and Prevention (CDC) announces the following meetings.

Name: Workshop on Screening and Tracking Systems for Early Hearing Detection and Intervention (EHDI).

Times and Dates: 8 a.m.-5 p.m., October 22, 1997; 8:30 a.m.-1 p.m., October 23, 1997; 8 a.m.-5 p.m., December 11, 1997; 8:30 a.m.-1 p.m., December 12, 1997.

Place: Sheraton Colony Square Hotel, 188 14th Street, NE, Atlanta, Georgia 30346. Telephone 404/892-6000 or 800/422-7865.

Status: Meetings will be open for participation by anyone with an interest in EHDI data systems.

Purpose: To explore the feasibility of an integrated data management and tracking system for hearing impairment and other childhood disabilities. Participants will review the evidence and issues related to a public health decision to screen all infants and will discuss ways in which early hearing detection and intervention could be implemented.

Matters to be Discussed: Invited Speakers will present issues and describe existing systems. Topics to be discussed during the meetings include (1) evidence related to the screening of all infants for hearing impairment; (2) current developments in tracking systems for childhood disabilities; (3) issues to be considered; (4) whether a centralized tracking system developed for EHDI can contribute to an integrated data management system of childhood disabilities.

CONTACT PERSON FOR MORE INFORMATION: June Holstrum, Ph.D., Division of Birth Defects and Developmental Disabilities, CDC, NCEH, 4770 Buford Highway, NE, M/S F-15, Atlanta, Georgia 30341, e-mail: ehdi@cdc.gov, telephone 770/488-7401, fax 770/488-7361.
