

- Two residences are within 50 feet of the proposed construction work area along Section 2.

Public Participation

You can make a difference by sending a letter addressing your specific comments or concerns about the project. You should focus on the potential environmental effects of the proposal, alternatives to the proposal (including alternative routes), and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. Please follow the instructions below to ensure that your comments are received and properly recorded:

- Send two copies of your letter to: Lois Cashell, Secretary, Federal Energy Regulatory Commission, 888 First St., N.E., Room 1A, Washington, D.C. 20426;
- Label one copy of the comments for the attention of the Environmental Review and Compliance Branch, PR-11.2;
- Reference Docket No. CP97-690-000; and
- Mail your comments so that they will be received in Washington, D.C. on or before November 14, 1997.

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding or become an "intervenor." Among other things, intervenor have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide copies of its filings to all other parties. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commissions Rules of Practice and Procedure (18 CFR 385.214) (see appendix 2).

The date for filing timely motions to intervene in this proceeding has passed. Therefore, parties now seeking to file late interventions must show good cause, as required by Section 385.214(b)(3), why this time limitation should be waived. Environmental issues have been viewed as good cause for late intervention.

You do not need intervenor status to have your scoping comments considered.

Lois D. Cashell,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2188]

Montana Power Company; Notice of Intent To Hold Public Meetings in Great Falls and Ennis, Montana, To Discuss the Draft Environmental Impact Statement (DEIS) for the Proposed Relicensing of the Missouri-Madison Hydroelectric Project

October 15, 1997.

On September 22, 1997, the Commission staff mailed the Missouri-Madison Hydroelectric Project DEIS to the Environmental Protection Agency, resource and land management agencies, and interested organizations, and individuals. This document evaluates the environmental consequences of the proposed relicensing of the Missouri-Madison Hydroelectric Project. The nine dams (Hebgen, Madison, Hauser, Holter, Black Eagle, Rainbow, Cochrane, Ryan, and Morony dams) that are a part of this project are located between West Yellowstone and above Great Falls, Montana, on over 300 river miles of the Madison and Missouri Rivers.

The public meetings will be recorded by a court reporter and are scheduled as follows: (1) Tuesday, November 18, 1997 at 7:00 p.m. in the Missouri Room of the Great Falls Civic Center, Great Falls, Montana and (2) Thursday, November 20, 1997 at 7:00 p.m. in the Ennis High School Library, Ennis, Montana. These meetings will focus on the DEIS and issues of concern to resource and land management agencies, interested organizations, and individuals. Another meeting is scheduled on Wednesday, November 19, 1997, from 9:00 a.m. to 3:00 p.m. in the Director's Conference Room of the State of Montana's Lee Metcalf Building, 1520 East Sixth Avenue, Helena, Montana. This meeting will focus on clarification of issues of primary concern to state and federal fish and wildlife agencies.

At the public meetings, Commission staff will summarize major DEIS findings and recommendations. Resource agency personnel and other interested persons will be provided an opportunity to submit oral and written comments about the DEIS for the Commission's public record. Written comments on the DEIS may also be sent to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426. Comments must be received by December 2, 1997. All correspondence

should include the appropriate project name (Missouri-Madison Project) and number (Project No. 2188) on the first page of the correspondence.

The DEIS considers recommendations received from the license applicant, citizens, resource agencies, and organizations. Resource enhancements affect flow regulation, recreation, land use, fish, wildlife, water quality, reservoir shoreline erosion, vegetation resources and other resource issues proposed.

Lois D. Cashell,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5912-2]

Agency Information Collection Activities Submission for OMB Review; National Emission Standards for Hazardous Air Pollutants (NESHAP) for Halogenated Solvent Cleaning

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Subpart T, National Emission Standards for Hazardous Air Pollutants (NESHAP) for Halogenated Solvent Cleaning, OMB number 2060-0273, expires 12/31/97. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before November 20, 1997.

FOR FURTHER INFORMATION CONTACT: call Sandy Farmer at EPA, (202) 260-2740, or download off the Internet from <http://www.epa.gov/icr/icr.htm> and refer to EPA ICR No. 1652.03.

SUPPLEMENTARY INFORMATION:

Title: Subpart T, National Emission Standards for Hazardous Air Pollutants (NESHAP) for Halogenated Solvent Cleaning (OMB Control No. 2060-0273; EPA ICR No. 1652.03) expiring 12/31/97. This is a request for extension of a currently approved collection.

Abstract: This ICR contains recordkeeping and reporting requirements that are mandatory for

compliance with 40 CFR part 63.460, et seq., Subpart T, National Emission Standards for Hazardous Air Pollutants (NESHAP) for Halogenated Solvent Cleaning. This information notifies EPA when a source becomes subject to the regulations, informs the Agency if a source is in compliance when it begins operation, and informs the Agency if the source remained in compliance during any period of operation. In the Administrator's judgment, emissions of hazardous air pollutants (HAPs) from halogenated solvent cleaners may cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Therefore, NESHAP standards were promulgated for this source category, as required under section 112 of the Clean Air Act.

HAP emissions from halogenated solvent cleaners are the result of inadequate equipment design and work practices. These standards rely on the proper design and operation of halogenated solvent cleaners such as working-mode covers, freeboard ratio of 1.0, and reduced room draft to reduce solvent emissions from halogenated solvent cleaners. Certain records and reports are necessary to enable EPA to identify sources subject to the standards and to ensure that the standards are being achieved. Owners/operators of halogenated solvent cleaners must provide EPA with an initial notification of existing or new solvent cleaning machines, initial statement of compliance, an annual control device monitoring report (owners/operators of batch vapor and in-line cleaning machines), an annual solvent emission report (owners/operators of batch vapor and in-line cleaning machines), an annual solvent emission report (owners/operators of batch vapor and in-line cleaning machines complying with the alternative standard), and exceedance of monitoring parameters or emissions. The records that the facilities maintain indicate to EPA whether they are operating and maintaining the halogenated solvent cleaners properly to control emissions. In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed

in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 06/18/97 (62 FR 33072); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 7 hours/response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/operators of halogenated solvent cleaners.

Estimated Number of Respondents: 1,845.

Frequency of Response: 4.

Estimated Total Annual Hour Burden: 32,483 hours.

Estimated Total Annualized Cost Burden: \$2,859,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1652.03 and OMB Control No. 2060-0273 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460 (or E-Mail Farmer.Sandy@epamail.epa.gov).

and
Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: October 14, 1997.

Joseph Retzer,

Director, Regulatory Information Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5912-1]

Agency Information Collection Activities: Submission for OMB Review; Standards of Performance for Air Emission Standards for Tanks, Surface Impoundments and Containers

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Standards of Performance for Air Emission Standards for Tanks, Surface Impoundments and Containers, 40 CFR part 264, subpart CC and 40 CFR part 265, subpart CC, OMB Control Number 2060-0318, expiring on November 30, 1997. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before November 20, 1997.

FOR FURTHER INFORMATION CONTACT: Call Sandy Farmer at EPA, (202) 260-2740, or download off the Internet from <http://www.epa.gov/icr/icr.htm>, and refer to EPA ICR No. 1593.03.

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance for Air Emission Standards for Tanks, Surface Impoundments and Containers, 40 CFR part 264, subpart CC and 40 CFR part 265, subpart CC, (OMB Control Number 2060-0318; EPA ICR No. 1593.03) expiring on November 30, 1997. This is a request for extension of a currently approved collection.

Abstract: The collection of this information is used by the EPA to ensure that appropriate environmental rules are being complied with and that emission control devices are properly operated and maintained. Reports required under this collection authority are used by the Agency to monitor compliance as well as targeting treatment, storage and disposal facilities for inspection. Section 3004(n) of the Hazardous and Solid Waste Amendments (HSWA) directed the EPA to promulgate regulations for monitoring and control of air emissions from treatment, storage and disposal facilities, as necessary, to protect human health and the environment. An agency
