

individual was identified. The two associated funerary objects are shell tinklers.

Cranio-metric measurements of this individual are consistent with those of known Mandan populations.

Based on continuities of material culture, architecture, and skeletal morphology, in addition to oral tradition and historical evidence, the cultural affiliation of the sites and individuals listed above can be affiliated with Mandan. This includes villages and sites determined to be affiliated with the Middle Missouri Tradition (encompassing the Initial, Extended, and Terminal variants). In 1870, the Mandan, Hidatsa, and Arikara tribes were moved to the Fort Berthold Indian Reservation in North Dakota and have since been known as the Three Affiliated Tribes.

Based on the above mentioned information, officials of the SARC have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of 34 individuals of Native American ancestry. Officials of the SARC have also determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 93 objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the SARC have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and associated funerary objects and the Three Affiliated Tribes of North Dakota.

This notice has been sent to officials of the Cheyenne River Sioux Tribe, Crow Creek Sioux Tribe, Lower Brule Sioux Tribe, Three Affiliated Tribes of North Dakota, and Standing Rock Sioux Tribe. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Renee Boen, Curator, State Archaeological Center, South Dakota Historical Society, P.O. Box 1257, Rapid City, SD 57709-1257; telephone: (605) 394-1936, before November 26, 1997. Repatriation of the human remains and associated funerary objects to the Three Affiliated Tribes of North Dakota may begin after that date

if no additional claimants come forward.

Dated: October 21, 1997.

Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, Feb. 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. Each proposed action is, or is expected to be, in some stage of the contract negotiation process in 1997. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

2. Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.

3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act (80 Stat. 383), as amended.

4. Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the time limits set forth in the advance public notices.

5. All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

6. Copies of specific proposed contracts may be obtained from the appropriate regional director or his designated public contact as they become available for review and comment.

7. In the event modifications are made in the form of a proposed contract, the appropriate regional director shall determine whether republication of the notice and/or extension of the comment period is necessary.

Factors considered in making such a determination shall include, but are not limited to: (i) the significance of the modification, and (ii) the degree of public interest which has been expressed over the course of the negotiations. As a minimum, the regional director shall furnish revised contracts to all parties who requested the contract in response to the initial public notice.
