Lewiston, ID****AGENCY:** Federal Aviation  
Administration (FAA), DOT.**ACTION:** Final rule.

**SUMMARY:** This action establishes the Lewiston, ID, Class E airspace. The recent commissioning of the Lewiston-Nez Perce Automated Surface Observation System (ASOS) qualifies the Lewiston-Nez Perce County Airport for a Class E surface area. The intended effect of this action is to provide the controlled airspace necessary, when the control tower is closed and Class D airspace is not active, to enable the FAA to provide Instrument Flight Rules (IFR) air traffic control services and separation to IFR aircraft.

**EFFECTIVE DATE:** 0901 UTC, January 1, 1998.

**SUPPLEMENTARY INFORMATION:****History**

On June 17, 1997, the FAA proposed to amend Title 14, Code of Federal Regulations, part 71 (14 CFR part 71) by establishing the Class E airspace area at Lewiston, ID (62 FR 32703). The recent commissioning of the Lewiston-Nez Perce ASOS qualifies the Lewiston-Nez Perce County Airport for a Class E surface area. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas designated as a surface area for an airport are published in Paragraph 6002 of FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

**The Rule**

This amendment to 14 CFR part 71 establishes Class E airspace within a 4.1

nautical mile radius of the Lewiston-Nez Perce County Airport, Lewiston, ID. Where communication and weather reporting criteria are met, the FAA establishes Class E airspace extending upward from the surface to the base of the overlying controlled airspace to contain terminal instrument operations, if such action is justified and/or in the public interest. The recent installation and commissioning of the Lewiston-Nez Perce ASOS qualifies the Lewiston-Nez Perce County Airport for a Class E surface area. The intended effect of this action is to provide the controlled airspace necessary, when the control tower is closed and Class D airspace is not active, to enable the FAA to provide IFR air traffic control services and separation to IFR aircraft at the Lewiston-Nez Perce County Airport. The area would be depicted on aeronautical charts for pilot reference.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Gillette, WY****AGENCY:** Federal Aviation  
Administration (FAA), DOT.**ACTION:** Final rule.

**SUMMARY:** This action revises the Gillette, WY, Class E airspace. This amendment provides additional airspace to fully encompass the procedures for a revised Standard Instrument Approach Procedure (SIAP) at Gillette-Campbell County Airport, Gillette, WY.

**EFFECTIVE DATE:** 0901 UTC, January 1, 1998.

**SUPPLEMENTARY INFORMATION:****History**

On July 25, 1997, the FAA proposed to amend Title 14, Code of Federal Regulations, part 71 (14 CFR part 71) by amending the Class E airspace area at Gillette, WY (62 FR 39977). This action would provide additional airspace to fully encompass a revised SIAP at Gillette-Campbell County Airport, WY.

Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received.

This action is the same as the proposal except for a typographical error discovered (and corrected herein) in the coordinates for the Gillette-Campbell County Airport, WY. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

### The Rule

This amendment to 14 CFR part 71 revises Class E airspace at Gillette, WY. This amendment provides approximately 6 nautical miles of additional airspace to the north, in order to fully encompass a slightly revised Localizer/Distance Measuring Equipment (LOC/DME) SIAP at Gillette-Campbell County Airport. Additional controlled airspace is necessary to accommodate the procedure turn portion of this revised SIAP and to provide for Instrument Flight Rules (IFR) operations at the airport. The area would be depicted on aeronautical charts for pilot reference.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Special Flight Rules in the Vicinity of Grand Canyon National Park

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of clarification; request for comments.

**SUMMARY:** This action sets forth the FAA's reevaluation of the economic and environmental impacts associated with the Special Flight Rules in the Vicinity of Grand Canyon National Park (GCNP) Final Rule, published on December 31, 1996. The Final Rule codifies the provisions of Special Federal Aviation Regulation (SFAR) No. 50-2; modifies the dimension of the GCNP Special Flight Rules Area; establishes new and modifies existing flight corridors and flight free zones; establishes reporting requirements and a curfew over certain areas for commercial sightseeing companies operating in the GCNP; and limits the number of aircraft that can be used for commercial sightseeing operations in the GCNP. After implementation of certain provisions of the Final Rule, the FAA discovered that it had significantly underestimated the number of commercial air tour aircraft operating in GCNP in 1995. The FAA has reevaluated the economic and environmental analyses completed for the Final Rule in light of this new information. The FAA has determined that the changes are not of such magnitude as to affect the Agency's position on the implementation of the Final Rule.
