part of Northern's FERC Gas Tariff, Fifth Revised Volume No. 1, Third Revised Sheet No. 226, to become effective on December 1, 1997.

[Docket No. RP98-24-000]

Questar Pipeline Company; Notice of Tariff Filing

November 4, 1997.

Take notice that on October 30, 1997, Questar Pipeline Company (Questar) tendered for filing of its FERC Gas Tariff, First Revised Volume No. 1, Fifth Revised Sheet No. 71 and Original Sheet No. 71A, to be effective November 1, 1997. The proposed tariff sheets revise Section 9 of Part 1 of the General Terms and Conditions of Questar's tariff.

Questar states that the technical implementation and programming of the business processes applicable to nominations tendered via Electronic Data Interchange (EDI) required Questar to choose one of three GISB model types for nominations—pathed, non-pathed or pathed non-threaded. Questar states further that the pathed non-threaded model appeared to be most closely related to the manner in which its nomination process has been administered in the past. Questar avers that it recently learned from its third-party vendor that implementation of the pathed non-threaded nomination procedure and development of the associated priority-of-service algorithm requires that Questar's priority of service identify more discreet levels of service than the current tariff defines.

Accordingly, Questar is seeking Commission approval to modify Section 9.1, Priority of Service, to more discreetly define and clarify priority-of-service levels that are consistent with the pathed non-threaded model nomination process.

Questar explains that it requests Commission waiver of Section 154.207 of its regulations so that the proposed tariff sheets may become effective November 1, 1997. Questar's newly developed gas-management system, which includes implementation of the pathed non-threaded nomination procedure, as well as the package ID requirements associated with order No. 587-C, will be activated on November 1, 1997. Questar explains further that, although identification of more discreet levels of service was required by

development of the priority-of-service algorithm associated with the pathed non-threaded nomination procedure, Questar did not learn of this requirement in sufficient time to provide a filing to the Commission 30 days prior to the proposed effective date. While Questar's customers have been made aware of the new priority-of-service levels and are anticipating implementation of this procedure on November 1, Questar believes it vital that the effective date of tariff sheets implementing the discreet levels of priority of service comport with the implementation date of the administration of that procedure.

Accordingly, Questar has requested that the Commission accept the tendered tariff sheets to be effective November 1, 1997, as proposed.

Questar states that a copy of this filing has been served upon its customers, the Public Service Commission of Utah and the Wyoming Public Service Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 and 385.214 of the Commission's Rules of Practice and Procedure. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make Protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.
