[Docket No. 97-056-8]

#### Mediterranean Fruit Fly; Removal of an Area From Quarantine

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Interim rule and request for comments.

**SUMMARY:** We are amending the Mediterranean fruit fly regulations by removing all of the quarantined area in Polk County, FL, from the list of quarantined areas. We have determined that the Mediterranean fruit fly has been eradicated from this area and that restrictions are no longer necessary. This action relieves unnecessary restrictions on the interstate movement of regulated articles from this area.

**DATES:** Interim rule effective November 14, 1997. Consideration will be given only to comments received on or before January 20, 1998.

**ADDRESSES:** Please send an original and three copies of your comments to Docket No. 97-056-8, Regulatory Analysis and Development, PPD, APHIS, suite 3C03, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comments refer to Docket No. 97-056-8. Comments received may be inspected at USDA, room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 am. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect comments are requested to call ahead on (202) 690-2817 to facilitate entry into the comment reading room.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Mediterranean fruit fly, *Ceratitis capitata* (Wiedemann), is one of the world's most destructive pests of numerous fruits and vegetables. The Mediterranean fruit fly can cause serious economic losses. Heavy infestations can cause complete loss of crops, and losses of 25 to 50 percent are not uncommon. The short life cycle of this pest permits the rapid development of serious outbreaks.

The regulations in 7 CFR 301.78 through 301.78-10 (referred to below as the regulations) restrict the interstate movement of regulated articles from quarantined areas to prevent the spread of Medfly to noninfested areas of the United States. Since an initial finding of Medfly infestation in Hillsborough County, FL, in June 1997, quarantined areas have included all or portions of Hillsborough, Manatee, Orange, Polk, and Sarasota Counties, FL.

In an interim rule effective on June 6, 1997, and published in the **Federal Register** on June 20, 1997 (62 FR 33537-33539, Docket No. 97-056-2), we added a portion of Hillsborough County, FL, to the list of quarantined areas and restricted the interstate movement of regulated articles from that quarantined area. In a second interim rule effective on July 3, 1997, and published in the **Federal Register** on July 10, 1997 (62 FR 36976-36978, Docket No. 97-056-3), we expanded the quarantined area in Hillsborough County, FL, and added areas in Manatee and Polk Counties, FL, to the list of quarantined areas. In a third interim rule effective on August 7, 1997, and published in the **Federal Register** on August 13, 1997 (62 FR 43269-43272, Docket No. 97-056-4), we further expanded the quarantined area by adding new areas in Hillsborough County, FL, and an area in Orange County, FL, to the list of quarantined areas. In that third interim rule, we also revised the entry for Manatee County, FL, to make the boundary lines of the quarantined area more accurate. In a fourth interim rule effective on September 4, 1997, and published in the **Federal Register** on September 10, 1997 (62 FR 47553-47558, Docket No. 97-

056-5), we quarantined a new area in Polk County, FL, and an area in Sarasota County, FL. In a fifth interim rule effective on October 15, 1997, and published in the **Federal Register** on October 21, 1997 (62 FR 54571-54572, Docket No. 97-056-7), we removed all or portions of the quarantined areas in Hillsborough, Manatee, Orange, Polk, and Sarasota Counties, FL, from the list of quarantined areas.

We have determined, based on trapping surveys conducted by the Animal and Plant Health Inspection Service (APHIS) and Florida State and county agency inspectors, that the Medfly has been eradicated from Polk County, FL. The last finding of the Medfly thought to be associated with the infestation in this area occurred on August 28, 1997. Since then, no evidence of infestation has been found in Polk County, FL. We are, therefore, removing Polk County, FL, from the list of areas in § 301.78-3(c) quarantined because of the Medfly. A portion of Hillsborough County, FL, remains quarantined.

##### Immediate Action

The Administrator of the Animal and Plant Health Inspection Service has determined that there is good cause for publishing this interim rule without prior opportunity for public comment. The area in Florida affected by this document was quarantined to prevent the Medfly from spreading to noninfested areas of the United States. Because the Medfly has been eradicated from this area, and because the continued quarantined status of this area would impose unnecessary regulatory restrictions on the public, immediate action is warranted to relieve restrictions.

Because prior notice and other public procedures with respect to this action are impracticable and contrary to the public interest under these conditions, we find good cause under 5 U.S.C. 553 to make this rule effective upon signature. We will consider comments that are received within 60 days of publication of this rule in the **Federal Register**. After the comment period closes, we will publish another document in the **Federal Register**. It will include a discussion of any comments we receive and any amendments we are making to the rule as a result of the comments.

**Executive Order 12866 and Regulatory Flexibility Act**

This rule has been reviewed under Executive Order 12866. For this action the Office of Management and Budget has waived its review process required by Executive Order 12866.

This interim rule amends the Medfly regulations by removing an area in Polk County, FL, from quarantine for Medfly. This action affects the interstate movement of regulated articles from this area. There are approximately 31 small entities that could be affected, including 7 fruit stands, 10 food stores, 1 transporter, 9 commercial growers, and 4 processing plants.

These small entities comprise less than 1 percent of the total number of similar small entities operating in the State of Florida. In addition, most of these small entities sell regulated articles primarily for local intrastate, not interstate movement, and the sale of these articles would not be affected by this interim rule.

Therefore, this action should have a minimal economic effect on the small entities operating in the area of Polk County that has been quarantined because of Medfly. We anticipate that the economic impact of lifting the quarantine, though positive, will be no more significant than was the minimal impact of its imposition.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

**Executive Order 12372**

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.)

**Executive Order 12988**

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule: (1) Preempts all State and local laws and regulations that are inconsistent with this rule; (2) has no retroactive effect; and (3) does not require administrative proceedings before parties may file suit in court challenging this rule.

**Paperwork Reduction Act**

This rule contains no new information collection or recordkeeping requirements under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

**DEPARTMENT OF AGRICULTURE****Federal Crop Insurance Corporation****7 CFR Parts 416 and 457****Pea Crop Insurance Regulations; and Common Crop Insurance Regulations, Green Pea Crop Insurance Provisions**

**AGENCY:** Federal Crop Insurance Corporation, USDA.

**ACTION:** Final rule.

**SUMMARY:** The Federal Crop Insurance Corporation (FCIC) finalizes specific crop provisions for the insurance of green peas. The provisions will be used in conjunction with the Common Crop Insurance Policy Basic Provisions, which contain standard terms and conditions common to most crops. The intended effect of this action is to provide policy changes to better meet the needs of the insured, separate green peas and dry peas into separate crop insurance provisions, include the current pea crop insurance regulations with the Common Crop Insurance Policy for ease of use and consistency of terms, and to restrict the effect of the current pea crop insurance regulations to the 1997 and prior crop years.

**EFFECTIVE DATES:** December 22, 1997.
