**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of termination of antidumping duty administrative review.

The Department of Commerce is terminating this review as a result of the absence of entries into the United States of fresh and chilled Atlantic salmon exported by Nordic Group A/L.

**EFFECTIVE DATE:** November 25, 1997.

#### SUPPLEMENTARY INFORMATION:

##### Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to 19 CFR Part 353 (1997).

##### Background

On April 12, 1991, the Department of Commerce (the Department) published the antidumping duty order on fresh and chilled Atlantic salmon from Norway (56 FR 14920). The Department published a notice of "Opportunity to Request Administrative Review" on April 2, 1997 (62 FR 15655). On April 30, 1997, the petitioner, Coalition for

Fair Atlantic Salmon Trade (FAST), requested that we conduct an administrative review of Nordic Group A/L (Nordic), an exporter of subject merchandise, for the period April 1, 1996, through March 31, 1997. We published a notice of "Initiation of Antidumping and Countervailing Duty Administrative Review" on May 21, 1997 (62 FR 27720). On May 27, 1997, Nordic reported that it made no shipments of the subject merchandise during the period of review (POR). On August 5, 1997, the Department conducted a no-shipment data query regarding Nordic using the U.S. Customs Service database. The purpose of this query was to determine whether the U.S. Customs Service suspended liquidation of entry summaries of this merchandise during the POR. Because the U.S. Customs Service did not identify any suspended entry summaries of subject merchandise exported by Nordic during the POR, we have determined that no entries into the Customs territory of the United States occurred during the POR. Therefore, the Department is terminating this review. The cash deposit rate for Nordic will continue to be zero percent, the rate established in the most recently completed segment of this proceeding (62 FR 1430, January 10, 1997, a new shipper review).

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: November 18, 1997.

**Notice of Amended Final Results of Antidumping Duty Administrative Review: Certain Welded Carbon Steel Pipe and Tube From Turkey**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** November 25, 1997.

**FOR FURTHER INFORMATION CONTACT:** Charles Riggle or Dennis McClure, Office of Antidumping/Countervailing Duty Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution

Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-0650 or (202) 482-3530, respectively.

**Applicable Statute and Regulations**

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions as they existed on December 31, 1994.

**Background**

On October 2, 1997, the Department of Commerce (the Department) published the final results of its administrative review of the antidumping duty order on certain welded carbon steel pipe and tube from Turkey (62 FR 51629). The period of review (POR) is May 1, 1993, through April 30, 1994.

On October 16, 1997, the Borusan Group (Borusan) filed two timely clerical error allegations. On October 21, 1997, Allied Tube & Conduit and Wheatland Tube Company (petitioners) replied to the allegations made by Borusan, pursuant to 19 C.F.R. 353.28. On October 24, 1997, Borusan filed unsolicited and untimely comments in response to the petitioners' October 21, 1997, submission. Pursuant to 19 C.F.R. 353.31, we did not consider Borusan's October 24, 1997, submission in our analysis, since it was submitted after the October 16, 1997, deadline for submitting comments on ministerial error allegations.

**Scope of the Review**

Imports covered by this review are shipments of certain welded carbon steel pipe and tube products with an outside diameter of 0.375 inch or more but not over 16 inches, of any wall thickness. These products are currently classifiable under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90. These products, commonly referred to in the industry as standard pipe and tube, are produced to various American Society for Testing and Materials (ASTM) specifications, most notably A-120, A-53, or A-135.

Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

**Allegations of Clerical Errors**

*Allegation 1: Inclusion of Inventory Carrying Costs in Constructed Value (CV)*

Borusan alleges that because Borusan's sales to the United States

were purchase price (PP) sales the Department should not have included inventory carrying costs in the calculation of CV.

The petitioners argue that Borusan's allegation is methodological, not ministerial, in nature. The petitioners cite to Policy Bulletin 94.2, "Treatment of Inventory Carrying Costs in Constructed Value" (March 25, 1994).

*DOC Position:* We do not find this issue to be ministerial in nature, because it is a substantive argument for a new methodology. *Kerr-McGee Chemical Corp. v. United States*, No. 97-2, Slip Op. at 20 (CIT January 8, 1997). Accordingly, we have not considered this issue because it is outside the scope of permissible corrections under 19 C.F.R. 353.28(d). Id. For more discussion, see Memorandum from the Team to Richard W. Moreland, dated November 18, 1997 (*Analysis Memorandum*).

*Allegation 2: Calculation of Weighted-Average Packing Costs*

Borusan alleges that the Department should have used production quantities, instead of sales quantities, to weight-average the indexed packing costs used in calculating cost of production and foreign market value.

The petitioners respond that the Department's use of sales quantities does not appear to be a ministerial error, noting that the use of sales quantity is reasonable because packing costs are largely related to the shipment, not production, of merchandise.

*DOC Position:* In the final results of the 1994-95 administrative review of certain welded carbon steel pipe and tube from Turkey, we indexed all costs, including packing expenses, using production quantities instead of sales quantities. See SAS programs used in the *Notice of Amended Final Results of Antidumping Duty Administrative Review: Certain Welded Carbon Steel Pipe and Tube from Turkey*, 62 FR 27013 (May 16, 1997). Therefore, in accordance with 19 C.F.R. 353.28(c), we are amending the final results of this administrative review to correct this ministerial error. For more discussion, see *Analysis Memorandum*.

**Amended Final Results of Review**

Upon correction of the ministerial error regarding packing costs, we have determined that the following margin for Borusan exists for the period indicated below:
