POLICY JUSTIFICATION

Greece - AIM-120B Advanced Medium-Range Air-to-Air Missiles

The Government of Greece has requested a possible sale of 90 AIM-120B Advanced Medium-Range Air-to-Air Missiles (AMRAAM), missile containers, and other related elements of logistics and program support. The estimated cost is \$42 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of Greece while enhancing weapon system standardization and interoperability with U.S. forces.

These additional missile systems will augment Greece's previous procurement of 150 AMRAAMs as well as enhance aircraft air-to-air capabilities. These missiles will be provided to Greece in accordance with and subject to the limitations on use and transfer of the Arms Export Control Act, as embodied in the terms of sale. This proposed sale will not adversely affect either the military balance in the region or U.S. efforts to encourage a negotiated settlement of the Cyprus question.

The principal contractors will be Hughes Aircraft International Services Company, Tucson, Arizona and Raytheon Company, Bedford, Massachusetts. One or more proposed offset agreements may be related to this proposed sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Greece.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
