SUMMARY: The Environmental Protection Agency published in the **Federal Register** of Monday, October 6, 1997, a direct final rule concerning the approval of regulations which define reasonably available control technology for sources of nitrogen oxides in Connecticut.

SUPPLEMENTARY INFORMATION: The EPA published a direct final rule in the October 6, 1997 **Federal Register** (62 FR 52016) adding § 52.370(c)(72) and § 52.385 but inadvertently included the wrong city address for two facilities listed under § 52.370(c)(72)(i) and mislabelled the table of EPA approved regulations under § 52.385. This correction changes the address for the two entries as well as the label of the table.

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and, is therefore not subject to review by the Office of Management and Budget. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4), or require prior consultation with State officials as specified by Executive Order 12875 (58

FR 58093, October 28, 1993), or involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994).

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[FRL-5933-2]

National Oil and Hazardous Substances Contingency Plan; National Priorities List Update

AGENCY: Environmental Protection
Agency.

ACTION: Notice of partial deletion of the
Para-Chem Southern, Inc. Superfund
Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) announces the partial deletion of the Para-Chem Superfund site in Simpsonville, South Carolina from the National Priorities List (NPL). The portion to be deleted (Source Control Portion of the Site) is described below. The NPL is Appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended. EPA and the State of South Carolina have determined that all appropriate Fund-financed responses under CERCLA have been implemented on the portions of the property targeted for this

partial deletion and that no further cleanup by responsible parties is appropriate. Moreover, EPA and the State of South Carolina Department of Health and Environmental Control have determined that remedial actions conducted on these portions of the property at the site to date remain protective of public health, welfare, and the environment.

EFFECTIVE DATE: January 12, 1998.

FOR FURTHER INFORMATION CONTACT:

Terry L. Tanner, Remedial Project Manager, U.S. EPA, Region 4, 61 Forsyth Street, Atlanta, GA 30303, 404/562-8797.

SUPPLEMENTARY INFORMATION: The site portion to be deleted from the NPL is a portion (Source Control Portion) of the Para-Chem Southern, Inc. Superfund Site, Simpsonville, South Carolina. The Source Control Portion of soils within one waste disposal area of the Site consisted of the excavation of 686 tons of drums, waste, and contaminated soils. These materials were classified as a hazardous waste by characteristic, and shipped to the GSX landfill. This partial deletion does not include all site soil actions nor the groundwater remedial action which will remain on the NPL. A Notice of Intent to Delete for this site was published in the **Federal Register** on June 30, 1997 (62 FR 35115). The closing date for comments on the Notice of Intent to Delete was July 30, 1997. EPA received no comments during this period.

The EPA identifies sites which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those sites. Sites on the NPL may be the

subject of Hazardous Substance Response Trust Fund (Fund) financed remedial actions. Any site deleted from the NPL remains eligible for fund-financed remedial actions in the unlikely event that conditions at the site warrant such action. Section 300.66(c)(8) of the NCP states that fund-financed actions may be taken at sites deleted from the NPL. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover cost associated with response efforts.
