

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

Schedules Pending

1. U.S. Office of Government Ethics (N1-522-98-1). Questionnaire files, training plans, and internal training program files maintained by the Education and Program Services Division.

2. Administrative Office of the United States Courts (N1-116-96-2). Jury Modernization System.

3. Department of Agriculture, Agricultural Research Service, (N1-310-97-2). Routine administrative files related to the input of information into an automated system used to keep track of USDA research projects.

4. Department of the Treasury, Internal Revenue Service (N1-58-97-3). Records accumulated by the Communications Division in the National Office's field offices (RCS 205).

5. Department of the Treasury, Internal Revenue Service (N1-058-97-6). Records accumulated by the Legislative Affairs Division.

6. Department of the Treasury, Internal Revenue Service (N1-058-97-10). Records accumulated by the Appeals Division in the National office and field offices.

7. Department of the Treasury, Internal Revenue Service (N1-058-98-7). Electronic records of the Audit Information Management System (AIMS).

8. Bureau of Public Debt (N1-53-96-4). Electronic records systems.

9. Federal Retirement Thrift Investment Board (N1-474-97-6). TSP forms filed by plan participants and/or annuitants.

10. United States Commission on Immigration Reform (N1-220-98-4). Comprehensive schedule.

Dated: December 9, 1997.

Michael J. Kurtz,

Assistant Archivist for Record Services—Washington, DC.

[FR Doc. 97-32776 Filed 12-15-97; 8:45 am]

BILLING CODE 7515-01-P

NATIONAL CREDIT UNION ADMINISTRATION

Notice of Meetings

Time and Date: 10:00 a.m., Thursday, December 18, 1997.

Place: Board Room, 7th Floor, Room 7047 1775 Duke Street, Alexandria, VA 22314-3428

Status: Open.

Matters to be Considered:

1. Request from a Credit Union to Convert to Private Insurance.
2. Request from a Federal Credit Union to Convert to Community Charter.
3. Request from a Federal Credit Union to Merge and Convert Insurance.
4. Request from a Federal Credit Union to Convert from a Federal Credit Union and Merge into a Federal Mutual Savings Bank.
5. Final Rule: amendment to Part 725.19, NCUA's Rules and Regulation, Central liquidity Facility Collateral Requirements.
6. Community Development Revolving Loan Program for Credit Unions: Notice of Applications for Participation.
7. Proposed Operating Fee Scale.
8. Proposed National Fields of Membership for Corporate Credit Unions.

Recess: 11:15 a.m.

Time and Date: 11:30 a.m., Thursday, December 18, 1997.

Place: Board Room, 7th Floor, Room 7047 1775 Duke Street, Alexandria, VA 22314-3428.

Status: Closed.

Matters to be Considered:

1. One (1) Administrative Action under Section 208 of the Federal Credit Union Act. Closed pursuant to exemptions (8), (9)(A)(ii) and (9)(B).
2. Four (4) Administrative Actions under Par 704 of NCUA's Rules and Regulations.

Closed pursuant to exemptions (8), (9)(A)(ii) and (9)(B).

3. Adoption of Robert's Rules of Order in the Absence of NCUA Rules and Regulations. Closed pursuant to exemptions (2) and (6).

4. Approval (In Part) of September 17, 1997, Open Board Minutes. Closed pursuant to exemptions (2) and (6).

5. Two (2) Personnel Actions. Closed pursuant to exemptions (2) and (6).

FOR FURTHER INFORMATION CONTACT: Becky Baker, Secretary of the Board, Telephone 703-518-6304.

Becky Baker,

Secretary of the Board.

[FR Doc. 97-32852 Filed 12-11-97; 5:12 pm]

BILLING CODE 7535-01-M

NATIONAL CREDIT UNION ADMINISTRATION

Notice of Previously Held Emergency Meeting

Time and Date: 9:09 a.m., Thursday, December 11, 1997.

Place: Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, Virginia 22314-3428.

Status: Closed.

Matters Considered:

1. Personnel Actions. Closed Pursuant to exemptions (2), (5), (6) and (9)(B).
2. Matters Relating to OPM Report. Closed pursuant to exemptions (2) and (6).

The Board voted unanimously that Agency business required that a meeting be held with less than the usual seven days advance notice, that it be closed to the public, and that earlier announcement of this was not possible.

The Board voted unanimously to close the meeting under the exemptions stated above. Deputy General Counsel James Engel certified that the meeting could be closed under those exemptions.

FOR FURTHER INFORMATION CONTACT: Becky Baker, Secretary of the Board, Telephone (703) 518-6304.

Becky Baker,

Secretary of the Board.

BILLING CODE 7535-01-M

NUCLEAR REGULATORY COMMISSION

[Docket 70-7001]

Notice of Amendment to Certificate of Compliance GDP-1 for the U.S. Enrichment Corporation Paducah Gaseous Diffusion Plant, Paducah, KY

The Director, Office of Nuclear Material Safety and Safeguards, has made a determination that the following amendment request is not significant in accordance with 10 CFR 76.45. In making that determination, the staff

concluded that: (1) There is no change in the types or significant increase in the amounts of any effluents that may be released offsite; (2) there is no significant increase in individual or cumulative occupational radiation exposure; (3) there is no significant construction impact; (4) there is no significant increase in the potential for, or radiological or chemical consequences from, previously analyzed accidents; (5) the proposed changes do not result in the possibility of a new or different kind of accident; (6) there is no significant reduction in any margin of safety; and (7) the proposed changes will not result in an overall decrease in the effectiveness of the plant's safety, safeguards or security programs. The basis for this determination for the amendment request is shown below.

The NRC staff has reviewed the certificate amendment application and concluded that it provides reasonable assurance of adequate safety, safeguards, and security, and compliance with NRC requirements. Therefore, the Director, Office of Nuclear Material Safety and Safeguards, is prepared to issue an amendment to the Certificate of Compliance for the Paducah Gaseous Diffusion Plant. The staff has prepared a Compliance Evaluation Report which provides details of the staff's evaluation.

The NRC staff has determined that this amendment satisfies the criteria for a categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for this amendment.

USEC or any person whose interest may be affected may file a petition, not exceeding 30 pages, requesting review of the Director's Decision. The petition must be filed with the Commission not later than 15 days after publication of this **Federal Register** Notice. A petition for review of the Director's Decision shall set forth with particularity the interest of the petitioner and how that interest may be affected by the results of the decision. The petition should specifically explain the reasons why review of the Decision should be permitted with particular reference to the following factors: (1) The interest of the petitioner; (2) how that interest may be affected by the Decision, including the reasons why the petitioner should be permitted a review of the Decision; and (3) the petitioner's areas of concern about the activity that is the subject matter of the Decision. Any person described in this paragraph (USEC or any person who filed a petition) may file a response to any petition for review, not to exceed 30 pages, within

10 days after filing of the petition. If no petition is received within the designated 15-day period, the Director will issue the final amendment to the Certificate of Compliance without further delay. If a petition for review is received, the decision on the amendment application will become final in 60 days, unless the Commission grants the petition for review or otherwise acts within 60 days after publication of this **Federal Register** Notice.

A petition for review must be filed with the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC, by the above date.

For further details with respect to the action see (1) the application for amendment and (2) the Commission's Compliance Evaluation Report. These items are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC, and at the Local Public Document Room.

Date of amendment request: August 29, 1997.

Brief description of amendment: The amendment proposes to revise the Technical Safety Requirements (TSRs) for the uranium hexafluoride release detection systems located in Zones 1 and 4 of Building C-360. The revision is to include operability and surveillance requirements for additional valves that are required to close upon C-360 Zone 1 or 4 uranium hexafluoride detection.

Basis for Finding of No Significance

1. The proposed amendment will not result in a change in the types or significant increase in the amounts of any effluents that may be released offsite.

The proposed changes establish limiting conditions for operation and associated surveillance requirements to demonstrate the operability of containment isolation valves. The change has no effect on the generation or disposition of effluents. Therefore, the proposed TSR modifications will not result in a change to the types or amount of effluents that may be released offsite.

2. The proposed amendment will not result in a significant increase in individual or cumulative occupational radiation exposure.

The proposed changes will not significantly increase any exposure to

radiation. Therefore, the changes will not result in a significant increase in individual or cumulative radiation exposure.

3. The proposed amendment will not result in a significant construction impact.

The proposed changes will not result in any construction, only procedure modification, therefore, there will be no construction impacts.

4. The proposed amendment will not result in a significant increase in the potential for, or radiological or chemical consequences from, previously analyzed accidents.

Accidents of concern involve the release of uranium hexafluoride in the C-360 laboratory area (Zone 1) and the basement transfer room (Zone 4). The proposed TSR changes ensure that the TSRs adequately address the current plant configuration by establishing limiting conditions for operation and associated surveillance requirements to demonstrate the operability of containment isolation valves. These changes will enhance the overall plant safety. The changes will not increase the probability of occurrence or consequence of any postulated accident currently identified in the safety analysis report.

5. The proposed amendment will not result in the possibility of a new or different kind of accident.

The proposed TSR modifications are necessary to reflect the fact that multiple valves on the autoclave transfer and sampling piping will isolate upon detection of uranium hexafluoride. The current TSR does not reflect recent modifications requiring closure of at least two isolation valves on each transfer/sampling pathway. The proposed changes will not create the possibility of a different type of equipment malfunction or a different type of accident.

6. The proposed amendment will not result in a significant reduction in any margin of safety.

The proposed changes to the TSRs ensure that the TSRs adequately address the current plant configuration by establishing limiting conditions for operation and associated surveillance requirements to demonstrate the operability of containment isolation valves that are required to close upon detection of uranium hexafluoride. These changes do not decrease the margins of safety.

7. The proposed amendment will not result in an overall decrease in the effectiveness of the plant's safety, safeguards or security programs.

Implementation of the proposed changes do not change the safety,

safeguards, or security programs. Therefore, the effectiveness of the safety, safeguards, and security programs is not decreased.

Effective date: The amendment to Certificate of Compliance GDP-1 becomes effective 30 days after being signed by the Director, Office of Nuclear Material Safety and Safeguards.

Certificate of Compliance No. GDP-1: Amendment will revise TSR 2.1.4.1 and 2.1.4.2a to establish operability and surveillance requirements for additional valves required to close upon C-360 Zone 1 or 4 uranium hexafluoride detection.

Local Public Document Room location: Paducah Public Library, 555 Washington Street, Paducah, Kentucky 42003.

Dated at Rockville, Maryland, this 8th day of December 1997.

For the Nuclear Regulatory Commission.

Carl J. Paperiello,

Director, Office of Nuclear Material Safety and Safeguards.

[FR Doc. 97-32760 Filed 12-15-97; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket 70-7001]

Notice of Amendment and Denial of Amendment Application to Certificate of Compliance GDP-1 for the U.S. Enrichment Corporation, Paducah Gaseous Diffusion Plant, Paducah, Kentucky

The Director, Office of Nuclear Material Safety and Safeguards, made a determination that the following amendment request is significant in accordance with 10 CFR 76.45. Notice of Receipt of Amendment Request appeared in the **Federal Register** on July 31, 1997, allowing a 30-day public comment period on the application.

The NRC staff has reviewed the certificate amendment application and concluded that, in part, it provides reasonable assurance of adequate safety, safeguards, and security, and compliance with NRC requirements. Therefore, the Director, Office of Nuclear Material Safety and Safeguards, is prepared to issue an amendment to the Certificate of Compliance for the Paducah Gaseous Diffusion Plant, approving portions of the amendment application. Other portions of the amendment application, as explained herein, are proposed to be denied. The staff has prepared a Compliance Evaluation Report which provides details of the staff's evaluation.

The NRC staff has determined that this amendment satisfies the criteria for a categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for this amendment.

USEC, or any person whose interest may be affected and who submitted written comments in response to the **Federal Register** Notice on the amendment application under § 76.37, may file a petition, not exceeding 30 pages, requesting review of the Director's Decision. The petition must be filed with the Commission not later than 15 days after publication of this **Federal Register** Notice. A petition for review of the Director's Decision shall set forth with particularity the interest of the petitioner and how that interest may be affected by the results of the decision. The petition should specifically explain the reasons why review of the Decision should be permitted with particular reference to the following factors: (1) the interest of the petitioner; (2) how that interest may be affected by the Decision, including the reasons why the petitioner should be permitted a review of the Decision; and (3) the petitioner's areas of concern about the activity that is the subject matter of the Decision. Any person described in this paragraph (USEC or any person who filed a petition) may file a response to any petition for review, not to exceed 30 pages, within 10 days after filing of the petition. If no petition is received within the designated 15-day period, the Director will issue the final amendment to the Certificate of Compliance without further delay. If a petition for review is received, the decision on the amendment application will become final in 60 days, unless the Commission grants the petition for review or otherwise acts within 60 days after publication of this **Federal Register** Notice.

A petition for review must be filed with the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC, by the above date.

For further details with respect to the action see (1) the application for amendment and (2) the Commission's Compliance Evaluation Report. These items are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L

Street, NW, Washington, DC, and at the Local Public Document Room.

Date of amendment request: April 23, 1997, revised July 31, 1997.

Brief description of amendment: The amendment is related to the planned modifications to upgrade the seismic capability of Buildings C-331 and C-335 at the Paducah Gaseous Diffusion plant. Specifically, the proposed amendment will move back the completion date for the seismic modifications required by Compliance Plan Issue 36, from December 31, 1997, to June 30, 1999. Additionally, the amendment approves proposed resolutions of the following three issues: (1) The increased stiffness of the buildings following completion of the modifications may change the predicted type and number of seismically-induced equipment failures inside the buildings; (2) the process of installing the new structural steel will temporarily make the building and contained equipment more susceptible to seismically-induced failures as the existing structural frames are altered and/or replaced; and (3) the process of installing the new structural steel may temporally increase the probability of equipment failures due to load handling accidents during construction. The amendment will also partially deny the USEC request. USEC will be required to begin the planned 18-month construction effort when the amendment is effective, instead of delaying until after the NRC completes review of an updated seismic risk analysis, USEC's updated safety analysis report, and USEC's final design for the planned seismic modifications. The proposed amendment will also approve two editorial changes to the Justification for Continued Operation (JCO) in Compliance Plan Issue 36; one other proposed change to the JCO will be denied.

Effective date: The amendment to Certificate of Compliance GDP-1 becomes effective immediately upon being signed by the Director, Office of Nuclear Material Safety and Safeguards.

Certificate of Compliance No. GDP-1: The amendment will revise Compliance Plan Issue 36 on the seismic modifications and will allow the planned modifications to proceed.

Local Public Document Room location: Paducah Public Library, 555 Washington Street, Paducah, Kentucky 42003.

Dated at Rockville, Maryland, this 8th day of December 1997.
