

Customs is maintaining the requirements for FROB cargo as set forth in the September 10, 1996, notice. Customs cannot accommodate the requested changes because Customs considers all cargo on board a vessel as potentially being used to facilitate the smuggling of narcotics and other contraband into the United States. Expressly stated, full bill of lading data is required for FROB cargo originating in Canada or from any other country and the data must be transmitted in English by the time of arrival.

Application Process

Parties desiring to participate in this test program must submit a written statement to the United States Customs Service, Cargo Release Processing, 1300 Pennsylvania Avenue, NW., Room 5.2b, Washington, DC 20229-0002, on or before 30 days from the date of publication of this notice in the **Federal Register**. The document, signed by an authorized official of the carrier, must state that the carrier wishes to voluntarily participate in the test and that the carrier meets all qualifications

as outlined in the September 10, 1996, **Federal Register** notice as modified by today's document. The statement must acknowledge that all submissions made to Customs as part of the test are required to be accomplished electronically. The document must also designate a national point of contact and telephone number, and shall also identify local contacts and telephone numbers for the use of Customs personnel at individual ports.

Basis for Participant Selection

Eligible importing carriers will be considered for participation in the test. Customs is looking for a variety of circumstances and participants in the test. Customs stresses that those not selected for participation are invited to comment on the test and to participate in its evaluation.

Selection will be based on the depth of an applicant's electronic interface capabilities and the ability to meet all the user requirements in the CAMIR and in this notice. Participants selected will be notified by means of the Customs Electronic Bulletin Board.
