SUPPLEMENTARY INFORMATION:

Background

On November 7, 1996, ATF published a Notice of Petition in the Federal Register at 61 FR 57597 which outlined the proposals made in a petition submitted by Heublein, Inc. Heublein's petition seeks changes in regulations

relating to the labeling and advertising of malt beverages which would prohibit the use of "Pina Colada," "Daiquiri," "Margarita," and similar terms in the labeling of malt beverage products. Heublein's petition also seeks to amend regulations relating to the labeling and advertising of distilled spirits to prohibit the term "Margarita" from being used in the labeling of any product unless that product is made with Tequila.

The comment period for Notice No. 844 was scheduled to close on February 5, 1997. Prior to the close of the Comment Period, ATF received a request from the National Association of Beverage Importers, Inc. (NABI), a trade association representing importers of alcoholic beverages, to extend the comment period for 30 days. In requesting the extended comment period, NABI stated that the petition had raised considerable controversy within the industry, and that its members required additional time to reach a position on the issues raised by the petition.

In consideration of this request, ATF finds that a reopening of the comment period is being warranted. Thus, the comment period is being reopened for a period of 30 additional days until March 7, 1997.

Disclosure

Copies of Heublein's petition and written comments received in response to the petition and to Notice No. 844 will be available for public inspection during normal business hours at: ATF Reading Room, Disclosure Branch, Room 6300, 650 Massachusetts Avenue NW, Washington, DC.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Extension of public comment period and announcement of availability of additional reports.

SUMMARY: The EPA is announcing the extension of the public comment period on the proposed revisions to the national ambient air quality standards (NAAQS) for ozone (O₃) (61 FR 65716) and particulate matter (PM) (61 FR 65638), and proposed requirements for designation of reference and equivalent methods for PM_{2.5} and ambient air quality surveillance for PM (61 FR 65780), all of which were published on December 13, 1996. The period of time for submitting written statements for the public hearing record for these proposals is also being extended. This document also extends the public comment period for the proposed interim implementation policy on new or revised O₃ and PM NAAQS (61 FR 65752), and the advance notice of proposed rulemaking (ANPR) for implementation of new or revised O₃ and PM NAAQS and regional haze regulations (61 FR 65764), published on December 13, 1996.

DATES: Written comments must be received on or before March 12, 1997. Written statements for inclusion in the public hearing record must be received on or before March 12, 1997.

ADDRESSES: Submit comments in duplicate if possible on the proposed

actions to: Office of Air and Radiation Docket and Information Center (6102), Attention: U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. In addition, please add the appropriate docket number as follows: Proposed PM NAAQS, A-95-54; proposed O₃ NAAQS, A-95-58; proposed requirements for designation of reference and equivalent methods for PM_{2.5} and ambient air quality surveillance for PM, A-96-51; and interim implementation policy on new or revised O₃ and PM NAAQS and the ANPR for implementation of new or revised O₃ and PM NAAQS and regional haze regulations, A-95-38. Parts 53 and 58 documents on requirements for designation of reference and equivalent methods for PM_{2.5} and ambient air quality surveillance for PM—Mr. Neil Frank, Monitoring and Quality Assurance Group (MD-14), Emissions, Monitoring, and Analysis Division, Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, NC 27711, telephone (919) 541-5560.

SUPPLEMENTARY INFORMATION: On February 10, 1997, the court order entered in *American Lung Association v. Browner*, CIV-93-643-TUC-ACM (D. Ariz., October 6, 1994), as modified, was further modified (1) by changing the date specified for the close of the public comment period in the review of the PM NAAQS to March 12, 1997, and (2) by changing the date for publication of a final decision to July 19, 1997.

In the order making these modifications, the Court stated that no further extensions will be granted. Because of the importance of

progressing the O₃ and PM NAAQS reviews on the same schedule, EPA is making corresponding changes to the schedule for the O₃ NAAQS review and associated requirements for designation of reference and equivalent methods for monitoring PM_{2.5} and ambient air quality surveillance for PM. In response to requests from the public, EPA is also extending the public comment period on the proposal of the interim implementation policy of new or revised O₃ and PM NAAQS and the advance notice of proposed rulemaking on the implementation of new or revised O₃ and PM NAAQS and regional haze regulations. Thus, EPA is extending the public comment period on the 40 CFR parts 50, 51, 53, and 58 proposals from February 18, 1997, to March 12, 1997.
