

requirements of Section 6(b).⁶ Specifically, the Commission believes the proposal is consistent with the Section 6(b)(5) ⁷ requirements that the rules of an exchange be designated to promote just and equitable principles of trade, to facilitate transactions in securities, to prevent fraudulent and manipulative acts, and, in general, to protect investors and the public interest.⁸

The Commission believes it is appropriate to allow the temporary use of the ICE system value as the official index value when the designated reporting authority is experiencing operating difficulties. Utilizing the ICE system as a backup in such situations will add stability to the affected options market because it will ensure the continued availability of current index values, which are essential to investment decisions in index options, while the designated reporting authority identifies and corrects the problems prohibiting the dissemination of an accurate index value.

The Commission also believes it is appropriate to provide the Phlx with the option of designating the ICE system as the reporting authority for its proprietary index options as long as prior Commission approval pursuant to Section 19 of the Act is obtained. Permitting the Phlx to act as the reporting authority for its proprietary index options should benefit investors by reducing the response time needed in the event there is a problem disseminating index values. Moreover, the Phlx has represented that the ICE system has been tested fully and that this system is capable of handling the proposed tasks.⁹

The Commission finds good cause for approving Amendment No. 1 prior to the thirtieth day after the date of publication of notice thereof in the Federal Register. Amendment No. 1 simply clarifies that designation of ICE as the reporting authority must be filed pursuant to Section 19(b) of the Act, explains that the Phlx's request for using ICE as the reporting authority for

FLEX options will be proposed in the FLEX options proposal (SR-Phlx-96-38), and removes the previous request for interim authority to utilize ICE which was deemed to be unnecessary given the Exchange's ability to use ICE until a problem in the designated reporting authority has been corrected.¹⁰

Therefore, the Commission believes that granting accelerated approval to Amendment No. 1 is appropriate and consistent with Section 6 and Section 19(b)(2) of the Act.¹¹

Interested persons are invited to submit written data, views and arguments concerning Amendment No. 1 to the proposed rule change. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rules change that are filed with the Commission, and all written communications relating to Amendment No. 1 between the Commission and any persons, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. § 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available at the principal office of the Phlx. All submissions should refer to File No. SR-Phlx-96-36 and should be submitted by March 17, 1997.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹² that the proposed rule change (SR-Phlx-96-36), as amended by Amendment No. 1, is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹³

Deputy Secretary.

Pecora, Attorney, Division of Market Regulation, SEC, November 22, 1996 (representing that ICE is capable of acting as a primary system despite the fact that it originally was designed as a backup system).

¹⁰ The proposal allows the Phlx to utilize the ICE system as the official reporting authority whenever the designated reporting authority is experiencing operating difficulties, but only until such difficulties are resolved. As soon as the problem is corrected, the Phlx must switch back to the designated reporting authority. If the reporting authority's problems occur on a regular basis, the Phlx can designate a different reporting authority, including ICE, by submitting a filing with the Commission pursuant to Section 19(b)(1) of the Act and Rule 19b-4 thereunder.

BILLING CODE 8025-01-P

**OFFICE OF THE UNITED STATES
TRADE REPRESENTATIVE**

**Generalized System of Preferences;
Information on Imports During First 10
Months of 1996; Opportunity for Public
Comment**

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: By this notice, the Trade Policy Staff Committee informs the public of certain U.S. import statistics for the period from January through October 1996 and affords the public an opportunity to comment on decisions, (including certain discretionary decisions) the President will make with respect to the Generalized System of Preferences (GSP) program. Before July 1, 1997, the President must announce the GSP "competitive need" limits set forth in section 503(c)(2)(A) of the Trade Act of 1974, as amended (the "1974 Act") (19 U.S.C. 2463(c)(2)(A)). The discretionary decisions concern (1) the "de minimis waiver" authority set forth in section 503(c)(2)(F) of their 1974 Act; and (2) the redesignation authority set forth in section 503(c)(2)(C) of the 1974 Act. Presidential decisions concerning the application of competitive need limits and other product-related decisions stemming from the 1995 Annual Review are expected to be announced in April, and implemented no later than July 1, 1997. (Note because the program's authorization previously expired on July 31, 1995, the Annual Review for that year was delayed until the program's reauthorization was signed into law on August 20, 1996. At that time the 1995 Annual Review resumed and no review for 1996 was conducted.)

FOR FURTHER INFORMATION CONTACT:

GSP Subcommittee, Office of the U.S. Trade Representative, 600 17th Street, NW., Room 517, Washington, DC 20508. The telephone number is (202) 395-6971.

SUPPLEMENTARY INFORMATION:

I. Competitive Need Limits

Pursuant to section 503(c)(2)(A), any GSP-eligible beneficiary country that exported to the United States in 1996 a quantity of any one GSP eligible article in excess of (1) \$75 million, or (2) 50 percent of the value of total U.S. imports of the article, is to be removed from GSP eligibility with respect to that article not later than July 1 of the next calendar year.

II. Discretionary Decisions

A. De Minimis Waivers

Section 503(c)(2)(F) of the 1974 Act permits the President to disregard the 50 percent "competitive need" limit with respect to any eligible article if the value of total imports of the article during calendar year 1996 did not exceed \$13 million.

B. Redesignation of Eligible Articles

If a country is no longer a beneficiary developing country with respect to an eligible article because imports exceeded the competitive need limits in a prior year, then, pursuant to section 503(c)(2)(C) of the 1974 Act, the President may redesignate the beneficiary developing country with respect to the eligible article if imports do not exceed the competitive need limits in a subsequent year.

III. Implementation of Competitive Need Limits, Waivers, and Redesignations

A proclamation will be issued to be effective no later than July 1, 1997, making the adjustments to the list of eligible articles that are required by section 503(c)(2)(A) of the 1974 Act and announcing the discretionary decisions referred to in this notice, on the basis of official data covering all of calendar year 1996.

It should be emphasized that the information set forth below covers only the first 10 months of 1996. Partial year data is being published now to provide the maximum possible advance indication of adjustments that may be made to meet the requirements of section 503(c)(2)(A) of the 1974 Act and to afford the earliest opportunity for comment on the possible discretionary decisions.

List I below shows specific GSP-eligible articles for beneficiaries which have already exceeded estimated competitive need limitations (i.e., a beneficiary supplied over \$75 million of an article and/or over 50 percent of imports of an article during the period from January through October, 1996) or have been graduated from the GSP in earlier years pursuant to the President's discretionary authority.

List II below shows beneficiaries which are approaching the competitive need limitations (i.e., a beneficiary accounted for over 48 percent of the value of total U.S. imports and/or over \$63 million during the period from January through October 1996).

List III below shows beneficiaries which, despite accounting for more than 50 percent of the value of total U.S. imports of an article, may be eligible to
