**DEPARTMENT OF DEFENSE****Office of the Secretary****Submission for OMB Review; Comment Request**

**ACTION:** Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Title and OMB Number:* Customer Satisfaction Surveys—Generic Clearance; OMB Number 0730-0003.

*Type of Request:* Revision.

*Number of Respondents:* 20,150.

*Responses Per Respondent:* 1.

*Annual Responses:* 20,150.

*Average Burden Per Response:* 8 minutes (average).

*Annual Burden Hours:* 2,958.

*Needs and Uses:* The information collection requirement is necessary to determine the kind and quality of services Defense Finance and Accounting Service (DFAS) customers want and expect, as well as their satisfaction with existing services. DFAS will conduct a variety of activities to include, but not necessarily limited to customer satisfaction surveys, transaction based telephone interviews, Interactive Voice Response Systems (IVRS) telephonic surveys, etc. This collection of information complies with E.O. 12862. The information collected focuses on customer perceptions and can help identify agency operations that need quality improvement, provide early detection of process or systems problems, and focus attention on areas where customer service and functional training or changes in existing operations will improve service delivery.

*Affected Public:* Individuals or households; business or other for-profit; not-for profit institutions; State, Local, or Tribal Government.

*Frequency:* On occasion.

*Respondent's Obligation:* Voluntary.

*OMB Desk Officer:* Mr. Edward C. Springer.

Written comments and recommendations on the proposed information collection should be sent to Mr. Springer at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

*DOD Clearance Officer:* Mr. Robert Cushing.

Written requests for copies of the information collection proposal should be sent to Mr. Cushing, WHS/DIOR, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302.

Dated: February 24, 1998.

**Final Supplemental Environmental Impact Statement (FSEIS) for Final Site Selection and Authorization for Implementation of the Proposed G.V. (Sonny) Montgomery Range, Camp Shelby Training Site, Camp Shelby, Mississippi**

**AGENCIES:** National Guard Bureau, Department of the Army, DOD; U.S.

Department of Agriculture, Forest Service.

**ACTION:** Notice of availability.

**SUMMARY:** In the July 1994 Military Use of Forest Service Lands Final Environmental Impact Statement (FEIS), the G.V. (Sonny) Montgomery Range is referred to as the Multiple Purpose Range Complex-Heavy (MPRC-H). Any reference to the MPRC-H in this or other documents refers to the G.V. (Sonny) Montgomery Range. The July 1994 FEIS and Record of Decision provided an environmental analysis in support of the issuance of a special use permit for continued military use of Forest Service lands in De Soto National Forest. The FEIS recognized that military use of Forest Service lands included construction of an MPRC-H within the Camp Shelby complex, although it did not specify the location. This FSEIS document contains the site-specific environmental analysis concerning the proposed location and alternatives on Camp Shelby for MPRC-H construction.

The G.V. (Sonny) Montgomery Range is a standard Army gunnery range which has three maneuver avenues with two course roads per avenue. Only non-dud producing (or "nonexplosive") ammunition will be fired within the target array. The range has a maximum of 270 targets that can be engaged with either live fire or the Multiple Integrated Laser Engagement System (MILES). The proposed range facility would allow armor and mechanized infantry units to fulfill all their gunnery requirements on an annual basis. The proposed project would consist of the range operation and control area, the downrange area, and the vehicle holding and maintenance area. The range operation and control area is the center of responsibility for overall control and coordination of movement and training exercises within the complex and is also the administrative center for the range complex. Range support facilities in this area may include the control tower, general instruction buildings, personnel and storage buildings, target maintenance building, latrines, covered mess, covered bleachers, and lysterbag holder. Also, an ammunition loading/unloading dock for armor munitions and an ammunition breakdown shelter for infantry should be provided (Huntsville Multiple Purpose Range Complex-Heavy Design information Guide).

The downrange area consists of three 4,500-meter by 300-meter lanes, each separated by a 50-meter buffer zone, and a 1- to 2-acre vehicle holding and

maintenance area that contains a 100-square-meter hardstand.

The proposed G.V. (Sonny) Montgomery Range supports collective training at the platoon and lower levels. Units using the proposed range complex will include tanks, infantry/cavalry fighting vehicles and attack helicopters. This advanced training develops collective skills at the small unit level. It requires sections and platoons to employ moving and stationary target engagement techniques with all weapon systems during daylight and periods of limited visibility.

The lack of an MPRC-H at Camp Shelby was noted in the Department of Defense response to a Government Accounting Office report, "Peacetime Training Did Not Adequately Prepare Combat Brigades for Gulf War," dated September 1991. The Army National Guard considers construction of this range complex vital to the training and combat readiness of the armor and mechanized infantry units that train at Camp Shelby. The proposed range complex will enhance the training capabilities and efficiencies at Camp Shelby by providing for simultaneous utilization of tank gunnery ranges and tank maneuver areas. It will permit more tanks to complete fire requirements simultaneously, leading to more efficient and effective utilization of training facilities at Camp Shelby.

A 45-day public review and comment period was provided for the Draft Supplemental Environmental Impact Statement (DSEIS). Two public meetings were conducted in Hattiesburg, Mississippi, on the DSEIS after the Notice of Availability was published. After all the comments were compiled and reviewed, responses were prepared to all relevant environmental issues that were raised. These responses to comments and/or any new pertinent information were incorporated into the DSEIS to constitute the FSEIS.

**DATES:** The public review period for this FEIS ends 30 days after the date of publication of the Environmental Protection Agency's Notice of Availability in the **Federal Register**. After the 30-day waiting period on the FSEIS has ended, a Record of Decision will be published.

**ADDRESSES:** Copies of the FSEIS will be mailed to individuals who participated in the public scoping process. Copies will also be sent to Federal state, regional, and local agencies; interested organizations and agencies; and public libraries. Individuals not currently on the mailing list may obtain a copy by request.
