

Act (NGPA), under El Paso's blanket certificate issued in Docket Nos. CP82-435-000 and CP88-433-000, pursuant to Section 7 of the Natural Gas Act (NGA), all as more fully set forth in the request that is on file with the Commission and open to public inspection.

El Paso's request for authorization states that on January 31, 1997, El Paso modified the existing Dollarhide Plant Meter Station from a receipt point to a delivery point under Section 311(a) and since then has exclusively used this meter for the transportation and delivery of natural gas under Part 284, Subpart B of the Commission's Regulations. El Paso believes that certification of the Dollarhide Plant Meter Station, located in Andrews County, Texas pursuant to Section 157.212 of the Commission's Regulations will allow the Dollarhide Plant Meter Station to be used more flexibly and with fewer restrictions, and, thus, is necessary and in the public interest.

El Paso states that the continued operation of the existing Dollarhide Plant Meter Station under the NGA is not prohibited by El Paso's existing tariff. El Paso further states that it has sufficient capacity to accomplish the deliveries of the requested gas volumes without detriment or disadvantage to El Paso's other customers.

The request further states that El Paso's environmental analysis applicable to the Section 311(a) modification of the Dollarhide Plant Meter Station supports the conclusion that the construction and requested continued operation of the Dollarhide Plant Meter Station was not and will not be a major Federal action significantly affecting the human environment.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for

authorization pursuant to Section 7 of the Natural Gas Act.

Acting Secretary.
