

Number of Respondents: 1,300.
Estimated Time Per Response: .084 hours.

Frequency of Response: On occasion reporting requirement.

Cost to Respondents: N/A.

Total Annual Burden: 109 hours.

Needs and Uses: The Emergency Broadcast System (EBS) was changed to the Emergency Alert System (EAS) effective January 1, 1997. This change required that all EBS collections/forms be corrected to reflect the name change. The EAS Activation Report postcard was developed as part of the EAS planning program. The program is a tri-agency agreement between the FCC, the NOAA National Weather Service, and the Federal Emergency Management Agency (FEMA). The postcard was recommended for use in the program by the National Industry Advisory Committee (NIAC).

The postcard allows the three agencies to assess the success of the program and identify the areas of the country that need further assistance in developing their local EAS plan.

Estimated Time Per Response: .5 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Cost to Respondents: \$500.

After this initial filing, cable operators must file updated rate cards and copies of customer notifications with the Commission

within 30 days of rate or service changes affecting the NPT.

The information contained in NPT filings is used by the Commission to ensure that cable operators are complying with conditions set forth for NPTs, i.e., that operators are not making fundamental changes to what they offer on their tiers of service, and that subscribers are given due notice of NPT offerings.
