

within 30 days of the date of publication of this notice in accordance with 19 CFR 353.38(c). Rebuttal briefs, which must be limited to issues raised in the case briefs, may be filed not later than 37 days after the date of publication. The Department will publish a notice of final results of this administrative review, which will include the results of its analysis of issues raised in any such comments, within 120 days after the date of publication of this notice.

The Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. The Department will issue appraisement instructions directly to the U.S. Customs Service.

Furthermore, the following deposit rate will be effective upon publication of the final results of this administrative review for all shipments of silicon metal from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for all PRC exporters will be the PRC-wide rate established in the final results of this administrative review; and (2) the cash deposit rates for non-PRC exporters and subject merchandise from the PRC will be the rates applicable to the PRC supplier of that exporter.

These deposit rates, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: March 2, 1998.

Robert S. LaRussa,

Assistant Secretary for Import Administration.

North Carolina State University; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 AM and 5:00 PM in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 97-097. *Applicant:* North Carolina State University, Raleigh, NC 27695. *Instrument:* Sample Cartridges for Photoelectron Emission Microscope. *Manufacturer:* Elmitec, Germany. *Intended Use:* See notice at 63 FR 809, January 7, 1998.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* This is a compatible accessory for an existing instrument purchased for the use of the applicant. The instrument and accessory were made by the same manufacturer. The accessory is pertinent to the intended uses and we know of no domestic accessory which can be readily adapted to the previously imported instrument.

Coastal Nonpoint Pollution Control Program: Conditional Approvals, Findings Documents, Responses to Comments, and Records of Decision

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce, and the U.S. Environmental Protection Agency.

ACTION: Notice of conditional approval of Coastal Nonpoint Pollution Control Programs and availability of Findings Documents, Responses to Comments, and Records of Decision for Maine, North Carolina, South Carolina, Oregon, and Virginia.

SUMMARY: Notice is hereby given of the conditional approval of the Coastal Nonpoint Pollution Control Programs (coastal nonpoint programs) and of the availability of the Findings Documents, Responses to Comments, and Records of Decision for Maine, North Carolina, South Carolina, Oregon, and Virginia. Section 6217 of the Coastal Zone Act Reauthorization Amendments (CZARA), 16 U.S.C. section 155b, requires states and territories with coastal zone management programs that have received approval under section 306 of the Coastal Zone Management Act to develop and implement coastal nonpoint programs. Coastal states and territories were required to submit their coastal nonpoint programs to the National Oceanic and Atmospheric Administration (NOAA) and the U.S. Environmental Protection Agency (EPA) for approval in July 1995.

NOAA and EPA have approved, with conditions, the coastal nonpoint programs submitted by Maine, North Carolina, South Carolina, Oregon, and Virginia.

NOAA and EPA have prepared a Findings Document for each 6217 program submitted for approval. The Findings Documents were prepared by NOAA and EPA to provide the rationale for the agencies' decision to approve each state and territory coastal nonpoint program. Proposed Findings Documents, Environmental Assessments, and Findings of No Significant Impact prepared for the coastal nonpoint programs submitted by Maine, North Carolina, South Carolina, Oregon, and Virginia were made available for public comment in the **Federal Register**. Public comments were received and responses prepared on the programs submitted by South Carolina, Oregon, and Virginia. No public comments were received on the programs submitted by Maine and North Carolina.

In accordance with the National Environmental Policy Act (NEPA), NOAA has also prepared a Record of Decision on each program. The requirements of 40 CFR Parts 1500-1508 (Council on Environmental Quality (CEQ) regulations to implement the National Environmental Policy Act) apply to the preparation of a Record of Decision. Specifically, 40 CFR 1505.2 requires an agency to prepare a concise public record of decision at the time of its decision on the action proposed in an environmental impact statement. The Record of Decision shall: (1) State what the decision was; (2) identify all alternatives considered, specifying the alternative considered to be environmentally preferable; and (3) state

whether all practicable means to avoid or minimize environmental harm from the alternative selected have been adopted.

In March 1996, NOAA published a programmatic environmental impact statement (PEIS) that assessed the environmental impacts associated with the approval of state and territory coastal nonpoint programs. The PEIS forms the basis for the environmental assessments NOAA has prepared for each state and territorial coastal nonpoint program submitted to NOAA and EPA for approval. In the PEIS, NOAA determined that the approval and conditional approval of coastal nonpoint programs will not result in any significant adverse environmental impacts and that these actions will have an overall beneficial effect on the environment. Because the PEIS served only as a "framework for decision" on individual state and territorial coastal nonpoint programs, and no actual decision was made following its publication, NOAA has prepared a NEPA Record of Decision on each individual state and territorial program submitted for review.

Copies of the Findings Documents, Responses to Comments, and Records of Decision may be obtained upon request from: Joseph A. Uravitch, Chief, Coastal Programs Division (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, 20910, tel. (301) 713-3155, x195.
