

Existing Methodology

$$1996 \text{ Phosphate Unit Value} = 1979 \text{ Base Year Unit Value} \times \frac{1995 \text{ GDP-IPD}}{1979 \text{ GDP-IPD}}$$

$$1996 \text{ Phosphate Unit Value} = \$0.337/\text{Unit} \times \frac{107.5}{55.3} = \$0.6551/\text{Unit}$$

Revised Methodology

$$1996 \text{ Phosphate Unit Value} = 1987 \text{ Base Year Unit Value} \times \frac{1995 \text{ Composite Index}}{1987 \text{ Composite Index}}$$

$$1996 \text{ Phosphate Unit Value} = \$0.5038 \times \frac{111.38}{96.73} = \$0.5801/\text{Unit}$$

The revised methodology would not be applied retroactively. However, the weighted composite index calculated value would be compared retroactively to the GDP-IPD based value to form a basis for correcting for actual phosphate market trends. Using this comparison technique, 1987 forms a new base value year, when the GDP-IPD indexed value and the composite indexed (market based) value coalesced.

No attempt would be made to apply a one-time Kleppe Formula (net back) to determine actual industry production costs and revenues for the same reasons that were acknowledged by the Department in 1980:

- There is a continued lack of bona fide open market sales from which to base overall revenues and prices.
- The process takes too long and is cumbersome, entailing extensive data collection and consuming audit resources.

The phosphate value computed under the revised methodology would be examined through a market analysis every 5 years, to ensure that the new valuation methodology is, in fact, reflecting changes in the western phosphate industry. Since the analysis that was part of the Phosphate Subcommittee's work occurred in 1996, the values computed for phosphate ore will be examined and compared to market data in 2001.

Potential Revenue Impact

The revenue impact associated with this proposed revision to the value adjustment methodology is difficult to predict because the selected indexes are relatively more volatile than the GDP-IPD and they will follow market trends. Had this index been adopted for 1996 the impact would have been an annual reduction in royalty of about \$444,000, or about 10.6 percent. However, royalty revenue is also impacted by the level of production from Federal leases as well as the unit value. Thus, royalty could

either increase or decrease based solely on changes to the level of production even without any change to the valuation methodology.

Dated: March 17, 1998.

Lucy Querques Denett,

Associate Director for Royalty Management.

DEPARTMENT OF THE INTERIOR**National Park Service****60-day Notice of Intention to Request Clearance of Collection of Information; Opportunity for Public Comment.**

AGENCY: Department of the Interior, National Park Service.

ACTION: Notice and request for comments.

SUMMARY: Under the Paperwork Reduction Act of 1995 and 5 CFR Part 1320, Reporting and Record Keeping Requirements, the NPS invites public comments on (1) the need for the information including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

The request is for revision of an existing information collection requirement approved by OMB and assigned clearance No. 1024-0037. Copies of the request and related forms and explanatory material may be obtained by contacting the Bureau's Clearance Officer at the phone number listed below.

DATES: Public comments will be accepted on or before May 26, 1998.

SEND COMMENTS TO: Diane M. Cooke, Information Collection Clearance Officer, WASO Administrative Program Center, National Park Service, 1849 C Street N.W., Room 3317, Washington, D.C. 20240, phone 202/208-3933.

FOR FURTHER INFORMATION CONTACT: Dr. Francis P. McManamon, Manager, Archeology and Ethnography Program, National Park Service, 1849 C Street N.W., Room NC210, Washington, D.C. 20240, phone: 202/343-4101.

SUPPLEMENTARY INFORMATION:

Title: Application for and issuance of Federal permits under the Archaeological Resources Protection Act and the Antiquities Act.

Departmental Form Numbers: DI-1926 (permit application), DI-1991 (permit form).

OMB Number: 1024-0037.

Expiration date: 7/31/98

Type of request: Renewal of clearance.

Description of need: Information collected responds to statutory requirements that Federal agencies (1) issue permits to qualified individuals and institutions desiring to excavate or remove archeological resources from public or Indian lands, and (2) specify terms and conditions, including reporting requirements, in permits. The information collected is reported annually to Congress and is used for land management purposes.

Automated data collection: At the present time, there is no automated way to gather this information.

Description of Respondents: Individuals, businesses, academic institutions, tribes or tribal members, Federal agencies and other parties wishing to excavate or remove archeological resources from public or Indian lands.

Estimated average number of respondents: 1050.

Estimated average burden hours per response: 1 hour.

Estimated annual reporting burden: 1050.

Diane M. Cooke,

*Information Collection Clearance Officer,
WASO Administrative Program Center,
National Park Service.*

DEPARTMENT OF THE INTERIOR

National Park Service

Submission of Study Package to Office of Management and Budget; Opportunity for Public Comment

AGENCY: Department of the Interior, National Park Service; and 4 units of the National Park System.

ACTION: Notice and request for comments.

ABSTRACT: The National Park Service (NPS) Visitor Services Project and four parks (The Netherlands Carillon/The U.S. Marine Corps War memorial—Iwo Jima (part of the George Washington Memorial Parkway), the National Monuments and Memorials (National Mall), Klondike Gold Rush National Historical Park (Skagway, Alaska), and Whiskeytown National Recreation Area) propose to conduct visitor surveys to learn about visitor demographics and visitor opinions about services and facilities in these four parks. The results of the surveys will be used by park managers to improve the services they provide to visitors while better protecting park natural and cultural resources. Study packages that include the proposed survey questionnaires for these four proposed park studies have been submitted to the Office of Management and Budget for review.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 and 5 CFR Part 1320, Reporting and Record Keeping Requirements, the NPS invites public comment on these four proposed information collection requests (ICR). Comments are invited on: (1) the need for the information including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. The purpose of the four proposed ICRs is to document the demographics of visitors to the four parks, to learn about the motivations and expectations these visitors have for

their park visits, and to obtain their opinions regarding services provided by the four parks and the suitability of the visitor facilities maintained in the four parks. This information will be used by park planners and managers to plan, develop, and operate visitor services and facilities in ways that maximize use of limited park financial and personnel resources to meet the expectations and desires of park visitors.

There were no public comments received as a result of publishing in the **Federal Register** a 60 day notice of intention to request clearance of information collection for these four surveys.

DATES: Public comments will be accepted on or before April 23, 1998.

SEND COMMENTS TO: Office of Information and Regulatory Affairs of OMB, Attention Desk Officer for the Interior Department, Office of Management and Budget, Washington, DC 20530; and also to: Margaret Littlejohn; Cooperative Park Studies Unit; Department of Forest Resources; College of Forestry, Wildlife and Range Sciences; University of Idaho; Moscow, ID 83844-1133.

FOR FURTHER INFORMATION OR A COPY OF THE STUDY PACKAGES SUBMITTED FOR OMB REVIEW, CONTACT: Margaret Littlejohn, phone: 208-885-7863, fax: 208-885-4261, or email: littlej@uidaho.edu.

SUPPLEMENTARY INFORMATION:

Title: National Park Service (NPS) Visitor Services Project Visitor Surveys at Four Parks.

Form: Not applicable.

OMB Number: To be assigned.

Expiration Date: To be assigned.

Type of Request: Request for new clearance.

Description of Need: The National Park Service needs information concerning visitor demographics and visitor opinions about the services and facilities that the National Park Service provides in each of these four parks. The proposed information to be collected regarding visitors in these four parks is not available from existing records, sources, or observation.

Automated Data Collection: At the present time, there is no automated way to gather this information, since it includes asking visitors to evaluate services and facilities that they used during their park visit. The intrusion on visitors to the parks is minimized by only contacting visitors during one 7-9 day period at each park.

Description of Respondents: A sample of visitors to each of these four parks.

Estimated Average Number of Respondents: 800 at The Netherlands Carillon/The U.S. Marine Corps War

memorial—Iwo Jima, 800 at the National Monuments and Memorials (National Mall), 480 at Klondike Gold Rush National Historical Park (Skagway, Alaska), and 864 at Whiskeytown National Recreation Area.

Estimated Average Number of Responses: Each respondents will respond only one time, so the number of responses will be the same as the number of respondents.

Estimated Average Burden Hours Per Response: 12 minutes.

Frequency of Response: One time per respondent.

Estimated Annual Reporting Burden: 160 hours at The Netherlands Carillon/The U.S. Marine Corps War memorial—Iwo Jima, 1600 hours at the National Monuments and Memorials (National Mall), 96 hours at Klondike Gold Rush National Historical Park (Skagway, Alaska), and 173 hours at Whiskeytown National Recreation Area.

BILLING CODE 4310-70-M

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Intent To Issue a Prospectus for Operation of a Photographic and Art Studio Within Yosemite National Park

SUMMARY: The National Park Service will be releasing a concession Prospectus authorizing continued operation of a photographic and art business for the visiting public within Yosemite National Park. The operation is located in Yosemite Valley in close proximity to the park's Visitor Center. The operation consists of the sale of photographic and art supplies and equipment, works of art, publications and handicraft items. The operation is year-round with the peak season during the summer months. The average visitation to the park is approximately 4 million annually. The annual gross receipts over the last 5 years has averaged about \$2 million. Staffing for the operation is 12-20 people. Limited employee housing is available on site. The new contract will be for five (5) years beginning October 1, 1998. There is an existing concessioner which has operated satisfactorily under the existing contract and has a right of preference in renewal.

SUPPLEMENTARY INFORMATION: The cost for purchasing a Prospectus is \$30.00.
