

NOTIFICATION PROCEDURES:

An individual can determine if this system contains a record with information pertaining to him/her by providing his/her name, signature, and SSN to the address shown under "System manager and address" above. (Furnishing the SSN is voluntary, but it makes searching for an individual's record easier and avoids delay.) If the SSN is unknown or no SSN has been assigned because the evidence presented with the application is being verified or has been determined to be fraudulent, the individual should provide name, signature, date and place of birth, sex, mother's birth name, and father's name, and evidence of identity. Information in this system of records is available to the subjects of the records.

RECORD ACCESS PROCEDURES:

Same as notification procedures. Also, requesters should reasonably specify the record contents which they are seeking.

CONTESTING RECORD PROCEDURES:

Same as notification procedures above. Also, requesters should reasonably identify the record, specify the information which they are contesting, and state the corrective action sought and the reasons for the correction, with supporting justification showing how the record is incomplete, untimely, inaccurate, or irrelevant.

RECORD SOURCE CATEGORIES:

Information in this system is obtained from SSN applicants (or individuals acting on their behalf). The SSN itself is assigned to the individual as a result of internal processes of this system.

SYSTEM EXEMPTIONS FROM CERTAIN PROVISIONS OF THE ACT:

None.

Title: Nationwide Survey of Public Roads Readers.

OMB Number: 2125-0562.

Type of Request: Extension of a currently approved collection.

Affected Public: Paid and complementary subscribers to Public Roads magazine.

Abstract: This study is pursuant to President Clinton's Executive Order 12862, which requires all agencies to identify their customers, survey their satisfaction with current services, set standards for service and measure results against them. In addition, a nationwide census of readers was conducted in 1995 to gauge the overall satisfaction of readers and to measure, in particular, reader satisfaction with significant changes that had been made in the magazine's design and content, subject scope, and audience. Now, it is time to survey a sample of the readership and compare the results to the benchmark established in 1995. Also, the results of this survey will form the basis of a major, direct-mail campaign to increase the number of paid subscribers.

Estimated Annual Burden Hours: 375 hours.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention DOT Desk Officer. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it 30 days after publication.
