This notice serves as a final reminder to importers of their responsibility under section 353.26 of the Department's regulations to file a certificate regarding reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to the parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with section 353.34(d) of the Department's regulations. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 27, 1998.

BILLING CODE 5000-04-M

DEPARTMENT OF DEFENSE**Department of the Army****Environmental Assessment (EA) on the Disposal and Reuse of the Defense Distribution Depot Ogden, UT (DDOU)**

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The proposed disposal action analyzed in the EA is for all excess DDOU property, in accordance with the Defense Base Closure and Realignment Act of 1990, Pub. L. 101-510, as amended. The Army will retain two parcels of 31.1 and 12.4 acres for use as a reserve component enclave. The remainder of the installation (approximately 1,075 acres) would be available for transfer or conveyance to the Ogden Local Redevelopment Authority (OLRA). Three alternative methods of disposal were analyzed: encumbered disposal, unencumbered disposal and retention of the property in caretaker status (i.e., no action alternative). The Army's preferred alternative for disposal of the DDOU is encumbered disposal which involves conveying the property with conditions imposed on historic resources, remedial activities, utility easements, access easements, utility dependencies, and lead-based paint.

The EA, which is incorporated into the Finding of No Significant Impact (FNSI), examines potential effects of the proposed action and alternatives on 15 resource areas and areas of environmental concern: land use, climate, air quality, noise, geology, and water resources infrastructure, hazardous and toxic substances, permits and regulatory authorizations, biological resources and ecosystems, cultural resources, economic development, socioeconomic and quality of life.

The EA concludes that the disposal and subsequent reuse of the property will not have a significant impact on the human environment. Issuance of a FNSI would be appropriate. An Environmental Impact Statement is not required prior to implementation of the proposed actions.

DATES: Comments must be submitted on or before May 6, 1998.

ADDRESSES: A copy of the EA or inquiries into the FNSI may be obtained
