Notice of Proposed Administrative Settlement Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice; request for public comment.

SUMMARY: In accordance with section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement concerning the Odessa Drum Site, Ector County, Texas with the following settling parties:

Keeling Petroleum
Texas Department of Transportation
Quaker Petroleum Chemical Company
Chem Tech Service, Inc.

The settlement require the settling parties to pay the following amounts to the Hazardous Substances Superfund. Keeling Petroleum (\$30,014.41), Texas Department of Transportation (\$131,085.89), Quaker Petroleum Chemical Company (\$251,317.79), and Chem Tech Services, Inc. (\$22,720.34). The settlement includes a covenant not to sue pursuant to Section 107 of CERCLA, 42 U.S.C. 9607.

For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the settlement. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public inspection at 1445 Ross Avenue, Dallas, Texas, 75202-2733.

DATES: Comments must be submitted on or before May 14, 1998.

ADDRESSES: The proposed settlement and additional background information relating to the settlements are available for public inspection at 1445 Ross Avenue, Dallas, Texas, 75202-2733. A Copy of the proposed settlement may be obtained from Carl Bolden, 1445 Ross Avenue, Dallas, Texas, 75202-2733 at (214) 665-6713. Comments should reference the Odessa Drum Superfund Site in Ector County, Texas and EPA Docket Number 6-12-97, and should be

addressed to Carl Bolden at the address listed above.

FOR FURTHER INFORMATION CONTACT: Mike Boydston, 1445 Ross Avenue, Dallas, Texas, 75202-2733 at (214) 665-7376.

Dated: April 3, 1998.

Notice of Proposed Revisions to Approved Program to Administer the National Pollutant Discharge Elimination System Permitting Program in Pennsylvania Resulting in Part From Adoption of the Water Quality Guidance for the Great Lakes System**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: Notification is hereby given that the Environmental Protection Agency (EPA) has received for review and approval revisions to the National Pollutant Discharge Elimination System (NPDES) program in Pennsylvania. Most of the proposed revisions were adopted to comply with section 118(c) of the Clean Water Act and 40 CFR 132.4, although in some cases, the Commonwealth has also proposed revisions that are not related to those required by section 118(c) of the CWA and 40 CFR 132.4. EPA invites public comment on whether EPA should approve these revisions pursuant to 40 CFR 123.62 and 132.5.

DATES: Comments on whether EPA should approve the revisions to Pennsylvania's NPDES program must be received in writing by May 14, 1998.

ADDRESSES: Written comments on these documents may be submitted to Thomas J. Maslany, Director, Water Protection Division, Attn: Great Lakes Coordinator (3WP11), U.S. Environmental Protection Agency, 841 Chestnut Street, Philadelphia, Pennsylvania 19107. In the alternative, EPA will accept comments electronically. Comments should be sent to the following Internet E-mail address:

sapp.charles@epamail.epa.gov.
Electronic comments must be submitted in an ASCII file avoiding the use of special characters and any form of encryption. EPA will print electronic comments in hard-copy paper form for

the official administrative record. EPA will attempt to clarify electronic comments if there is an apparent error in transmission. Comments provided electronically will be considered timely if they are submitted electronically by 11:59 p.m. (Eastern time) May 14, 1998.

Interested persons may request a public hearing regarding whether EPA should approve, pursuant to 40 CFR 123.62, and 132.5(g), those portions of the Commonwealth's submission that revise the Commonwealth's approved National Pollutant Discharge Elimination System (NPDES) permitting program. EPA will determine based on requests received if there is significant interest to warrant a public hearing. In making a finding of significant interest, EPA will consider the scope and content of comments received concerning those portions of the Commonwealth's submission that revise its approved NPDES permitting program. It should be noted that EPA is not soliciting comment on those portions of the Commonwealth's submission relating to the water quality criteria and methodologies, use designations or antidegradation, or on 40 CFR part 132 itself.

FOR FURTHER INFORMATION CONTACT: Charles W. Sapp, PA/DE Branch (3WP11), Office of Watersheds, Water Protection Division, U.S. Environmental Protection Agency, Region 3, 841 Chestnut Street, Philadelphia, Pennsylvania 19107, or telephone him at (215) 566-5725.

Copies of the rules adopted by the Commonwealth, and other related materials submitted by the Commonwealth in support of these revisions, are available for review at: EPA, Region 3, 841 Chestnut Street, 13th Floor, Philadelphia, Pennsylvania; and Pennsylvania Department of Environmental Protection, Northwest Regional Office, 230 Chestnut Street, Meadville, Pennsylvania. To access the docket material in Philadelphia, call (215) 566-5725 between 8 a.m. and 4:30 p.m. (Eastern time) (Monday-Friday); in Meadville, call (814) 332-6942.

SUPPLEMENTARY INFORMATION: On March 23, 1995, EPA published the Final Water Quality Guidance for the Great Lakes System (Guidance) pursuant to section 118(c)(2) of the Clean Water Act, 33 U.S.C. 1268(c)(2). (March 23, 1995, 60 FR 15366). The Guidance, which was codified at 40 CFR part 132, requires the Great Lakes States to adopt and submit to EPA for approval water quality criteria, methodologies, policies and procedures that are consistent with the Guidance. 40 CFR 132.4 and 132.5. EPA is required to approve of the State's

submission within 90 days or notify the State that EPA has determined that all or part of the submission is inconsistent with the Clean Water Act or the Guidance and identify any necessary changes to obtain EPA approval. If the State fails to make the necessary changes within 90 days, EPA must publish a document in the **Federal Register** identifying the approved and disapproved elements of the submission and a final rule identifying the provisions of part 132 that shall apply for discharges within the State.

U.S. EPA has received the submission from Pennsylvania. The bulk of this submission consists of new, revised or existing water quality standards which EPA is reviewing for consistency with the Guidance in accordance with 40 CFR parts 131 and 132.5. EPA is not soliciting comment on those portions of this submission relating to the water quality criteria and methodologies, use designations or antidegradation. EPA also is not soliciting comment on the Guidance itself.

Instead, EPA is only requesting comment on whether it should approve, pursuant to 40 CFR 123.62, and 132.5(g), those portions of this submission that revise the Commonwealth's approved National Pollutant Discharge Elimination System (NPDES) permitting program. In most cases, these revisions relate to the following provisions of 40 CFR part 132, appendix F: Procedure 3 ("Total Maximum Daily Loads, Wasteload Allocations for Point Sources, Load Allocations for Nonpoint Sources, Wasteload Allocations in the Absence of a TMDL, and Preliminary Wasteload Allocations for Purposes of Determining the Need for Water Quality Based Effluent Limits"); Procedure 4 ("Additivity"); Procedure 5 ("Reasonable Potential"); Procedure 6 ("Whole Effluent Toxicity"); Procedure 7 ("Loading Limits"); Procedure 8: ("Water Quality-based Effluent Limitations Below the Quantification Level"); and Procedure 9 ("Compliance Schedules"). EPA is not soliciting comment on the Commonwealth's adoption of requirements pertaining to Implementation Procedure 1 ("Site Specific Modifications") because those requirements constitute parts of the Commonwealth's water quality standards, not its NPDES program.

Under 40 CFR 123.62(b)(2) and 132.5(e), whenever EPA determines that a proposed revision to a State NPDES program is substantial, EPA must provide notice and allow public comment on the proposed revisions. The extent to which the States have modified their NPDES programs to be

consistent with the Guidance varies significantly, depending on the extent to which their existing programs already were "as protective as" the implementation procedures in the Guidance. EPA has not conducted a State-by-State review of the submissions to ascertain for each State individually whether their changes constitute substantial program modifications. However, in light of the fact that the States have modified these programs in response to the explicit statutory mandate contained in section 118(c) of the Clean Water Act, EPA believes that it is appropriate to consider the NPDES component of the States' submission to be substantial program modifications, and therefore has decided to solicit public comment regarding those provisions.

Based on General Counsel Opinion 78-7 (April 18, 1978), EPA has long considered a determination to approve or deny a State NPDES program submission to constitute an adjudication because an "approval," within the meaning of the APA, constitutes a "license," which, in turn, is the product of an "adjudication." For this reason, the statutes and Executive Orders that apply to rulemaking action are not applicable here. Among these are provisions of the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.* Under the RFA, whenever a federal agency proposes or promulgates a rule under section 553 (of the Administrative Procedures Act (APA)), after being required by that section or any other law to publish a general notice of proposed rulemaking, the agency must prepare a regulatory flexibility analysis for the rule, unless the Agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. If the Agency does not certify the rule, the regulatory flexibility analysis must describe and assess the impact of a rule on small entities affected by the rule.

Even if the NPDES program modification were a rule subject to the RFA, the Agency would certify that approval of the State's modified program would not have a significant economic impact on a substantial number of small entities. EPA's action to approve an NPDES program modification merely recognizes revisions to the program which have already been enacted as a matter of State law; it would, therefore, impose no additional obligations upon those subject to the State's program. Accordingly, the Regional Administrator would certify that this program modification, even if a rule, would not have a significant economic

impact on a substantial number of small entities.

Thomas C. Voltaggio,

Acting Regional Administrator, Region III.
