Notice of Lodging of Consent Decree Pursuant to the Clean Air Act

Notice is hereby given that on March 31, 1998, a proposed Consent Decree was lodged with the United States District Court for the District of Alaska in *United States v. Union Oil Co.*, A97-397 CIV (JWS) (D. Alaska). The proposed Consent Decree settles claims asserted by the United States at the request of the United States Environmental Protection Agency ("EPA") in a complaint filed on October

7, 1997. The United States filed its complaint pursuant to Section 113 of the Clean Air Act ("CAA" or "Act"), 42 U.S.C. 7413(b). The complaint requested the assessment of civil penalties and injunctive relief against defendant Union Oil Company of California d.b.a. The United States alleges that the violations occurred in connection with the modification and operation of equipment at Unocal's ammonia and urea processing facility in Kenai, Alaska.

Under the proposed Consent Decree, Unocal will pay to the United States a \$550,000 civil penalty. In addition, Unocal will spend more than \$6.6 million to install a Supplemental Environmental Project ammonia flare and scrubber system. Unocal also will monitor the combustion efficiency of its equipment and will perform specified injunctive relief to comply with the Clean Air Act and the Alaska State Implementation Plan.

Background

In its effort to support and encourage cross-national and interagency partnerships devoted to producing and utilizing comparative research on crime, the National Institute of Justice is soliciting proposals for research on crime and criminal behavior of a cross-national and comparative nature. NIJ intends to support up to five research challenge grants to U.S. based researchers to conduct the U.S. part of a comparative study, for a total of up to \$500,000. Each project supported by NIJ must have counterparts to conduct parallel research outside of the United States. These counterparts may be supported by the government agencies or departments, private non-profit organizations, or universities of other nations. In this way, it is anticipated that the first projects will initiate a new series of cross-national research partnerships.
