

Executive Order 12988

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

National Environmental Policy Act

No Environmental impact statement is required for this rule since section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332(2)(C)).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon counterpart Federal Regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

Unfunded Mandates

This rule will not impose a cost of \$100 million or more in any given year on any governmental entity or the private sector.

COMMISSION**
47 CFR Part 73

[MM Docket No. 98-52, RM-9239]

**Radio Broadcasting Services; Hague,
NY, Addison, VT**

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition filed by John Anthony Bulmer requesting the substitution of Channel 229C3 for Channel 229A at Hague, NY, the reallocation of Channel 229C3 to Addison, VT, as the community's first local aural service, and the modification of his construction permit for Station WWFY to specify Addison as its community of license. Channel 229C3 can be allotted to Addison, Vermont, in compliance with the Commission's minimum distance separation requirements, with respect to all domestic allotments, with a site restriction of 14.2 kilometers (8.8 miles) west, at coordinates 44-02-30 North Latitude; 73-28-00 West Longitude, to accommodate petitioner's desired transmitter site. The allotment will result in a short-spacing to Station CBM-FM, Channel 228C1, Montreal, Quebec, Canada. Therefore, since Addison is located within 320 kilometers (200

miles) of the U.S.-Canadian border, concurrence in the allotment as a specially negotiated short-spaced allotment will be sought from the Canadian government.
