Honorable Newt Gingrich
Speaker of the House of
Representatives
Washington, D.C. 20515-6501

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 98-30, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance (LOA) to Canada for defense articles and services estimated to cost \$20 million. Soon after this letter is delivered to your office, we plan to notify the news media.

Sincerely,

A handwritten signature in black ink, appearing to read "H. Dishi McKalip".

H. Dishi McKalip
Acting Director

- (vii) Date Report Delivered to Congress: 21 APR 1998

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATIONCanada - HARPOON Missiles

The Government of Canada has requested a possible sale of 12 HARPOON missiles, personnel training and training equipment, spare and repair parts, support equipment, publications, U.S. Government and contractor technical assistance and other related elements of logistics support. The estimated cost is \$20 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of Canada and enhancing weapon system standardization and interoperability of this important NATO ally.

The HARPOON missiles will increase their military defensive posture and augment their current HARPOON inventory of surface deployed missiles. Canada, which already has HARPOON missiles in its inventory, will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be McDonnell Douglas Aerospace Company, St. Louis, Missouri. There are no offset agreements proposed to be entered into in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Canada.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 98-30**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vi****(vi) Sensitivity of Technology:**

1. The RGM-84G-4 HARPOON surface launch missile has the following classified components, including applicable technical and equipment documentation and manuals:

Guidance Section Components: Confidential

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
