

technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Following Plants: Ethylene Dichloride, Vinyl Chloride Monomer, Polyvinyl Chloride.

Estimated Number of Respondents:

44.

Frequency of Response: Quarterly.

Estimated Total Annual Hour Burden: 16,159 hours.

Estimated Total Annualized Cost Burden: \$1,980,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0186.08 and OMB Control No. 2060-0071 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460; and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: April 24, 1998.

Joseph Retzer,

Director, Regulatory Information Division.

Underground Injection Control Program, Hazardous Waste Disposal Injection Restrictions Petition for Exemption—Class I Hazardous Waste Injection Parke-Davis Division, Warner-Lambert Company of Morris Plains, NJ, Holland, MI Plant

AGENCY: Environmental Protection Agency.

ACTION: Notice of final decision on petition.

SUMMARY: Notice is hereby given by the United States Environmental Protection Agency (USEPA) that an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments (HSWA) to the Resource Conservation and Recovery Act (RCRA) has been granted to Parke-Davis Division, Warner-Lambert Company, of Morris Plains, New Jersey, for its Class I injection wells located in Holland, Michigan. As required by 40 CFR Part 148, Parke-Davis has demonstrated, with a reasonable degree of certainty, that there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the continued underground injection by Parke-Davis of the specific restricted hazardous wastes identified below exclusively into the Class I hazardous waste injection wells at the Holland facility specifically identified as Wells Numbers 3, 4 and 5. This decision constitutes final USEPA action for which there is no Administrative Appeal.

D001, D002, D004, D005, D006, D007, D008, D009, D010, D011, D018, D019, D021, D022, D035, D038, D040, D043, F002, F003, F005, P030, P095, P102, U002, U003, U004, U012, U019, U029, U037, U043, U044, U048, U056, U057, U080, U112, U122, U147, U151, U154, U159, U188, U190, U196, U210, U211, U213, U220, U228, U239, U404

One code, U404, was inadvertently omitted from the draft list of codes and has been added.

Background: Parke-Davis submitted a petition for exemption from the land disposal restrictions on hazardous waste on June 10, 1991. USEPA personnel reviewed all data pertaining to the petition, including, but not limited to, well construction, regional and local geology, seismic activity, penetrations of the confining zone and the computer model. The USEPA has determined that the geological setting at the site and the construction and operation of the well are adequate to prevent fluid migration out of the injection zone within 10,000 years, as required under 40 CFR part 148. The zone which will contain the hazardous constituents, the injection zone, at this site is the Munising and Trempeleau Formations between the depths of 4452 and 6027 feet below ground level. Injection is permitted into the Mt. Simon Member of the Munising Formation between the depths of 5080 and 6027 feet. The immediate confining zone is the Prairie du Chien Group at a depth between 3929 and 4452 feet. The confining zone is separated from the

lowermost underground source of drinking water (at a depth of 240 feet) by a sequence of permeable and less permeable sedimentary rocks, which provide additional protection from fluid migration into drinking water sources. A fact sheet containing a more complete summary of the of the final decision is available from the USEPA Region 5 office.

A public notice was issued on March 2, 1998, pursuant to 40 CFR 124.10. A public hearing was scheduled for April 1, 1998, in Holland, Michigan but was canceled due to lack of public interest. The public comment period ended on April 1, 1998. No comments were received.

Conditions: As a condition of this exemption, Parke-Davis must meet the following conditions:

(1) The monthly average injection rate is limited to 100 gallons per minute per well.

(2) Injection shall occur only into the Mt. Simon Sandstone Member of the Munising Formation between the depths of 5080 and 6027 feet.

(3) Parke-Davis must be in full compliance with all conditions of its permits. Other conditions relating to the exemption may be found in 40 CFR 148.23 and 148.24.

DATE: This action is effective as of April 6, 1998.

FOR FURTHER INFORMATION CONTACT:

Stephen Roy, Lead Petition Reviewer, USEPA, Region 5, telephone (312) 886-6556, electronic mail roy.stephen@epamail.epa.gov. Copies of the petition and all pertinent information relating to it are on file and are part of the administrative record. It is recommended that you contact the lead reviewer prior to reviewing the administrative record.

Rebecca Harvey,

Acting Director, Water Division.

Science Advisory Board; Notification of Public Teleconference Meeting

May 14, 1998

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notification is hereby given that the Science Advisory Board's (SAB)

Ecological Processes and Effects Committee will conduct a public teleconference meeting on Thursday, May 14, 1998, between the hours of 11:00 am and 1:00 pm, Eastern Time. The purpose of the meeting is for the Committee to discuss possible strategic projects that it may wish to initiate over the coming months. A limited number of teleconference lines will be available on a first-come first-served basis for members of the public who wish to call into the meeting. For additional information on the meeting, including how to participate in the conference call, contact Ms. Stephanie Sanzone, Designated Federal Official for the Committee, at (202) 260-6557 or sanzone.stephanie@epa.gov no later than 4:00 pm on May 12, 1998. Anyone wishing to provide written or oral comments (limited to five minutes per individual) to the Committee must contact Ms. Sanzone in writing by 4:00 pm on May 12, 1998 at fax (202) 260-7118 or sanzone.stephanie@epa.gov.

Dated: April 22, 1998.

Donald G. Barnes,

Staff Director, Science Advisory Board.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by the Federal Communications Commission

April 23, 1998.

SUMMARY: The Federal Communications Commissions, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to

minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments by June 29, 1998.

ADDRESSES: Direct all comments to Judy Boley, Federal Communications Commissions, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Judy Boley at 202-418-0214 or via internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0089.

Title: Application for Land Radio Station Authorization in the Maritime Services.

Form No.: FCC 503.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals and households; Business or other for-profit; Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents: 2,926.

Estimated Time Per Response: 45 minutes.

Total Annual Burden: 2,195 hours.

Frequency of Response: On occasion reporting requirement.

Needs and Uses: FCC Rules require that applicants file FCC 503 when applying for a new station or when modifying an existing land radio station in the Maritime Mobile Service or an Alaska Public Fixed Station. This form is required by the Communications Act of 1934, as amended; International Treaties and FCC Rules - 47 CFR Parts 1.922, 80.19 and 80.29. The data collected is necessary to evaluate a request for station authorization in the Maritime Services or an Alaska Public Fixed Station, to issue licenses, and to update the database to allow proper management of the frequency spectrum. FCC Form 503 is being revised to collect Antenna Structure Registration Number/or FCC Form 854 File Number; and Internet or E-Mail address of applicant. Due to changes in the antenna clearance procedures we no longer need to collect certain antenna information, such as name of the nearest aircraft landing area and distance and direction to nearest runway. The instruction are being edited accordingly.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.
