

of the hot-rolled lead bar investigations. U.S. re-rollers were purchasing lead billets and rolling them into hot-rolled lead bar before 1992. As noted above, Republic began purchasing lead billets in the mid-80's from foreign sources. New hot-rolled lead bar entrants came into the market after the departure of Bethlehem, causing an increase in the demand for lead billets. While Bethlehem was able to produce its own lead billets, the two new entrants, Bar Tech and Sheffield, have to purchase their lead billets from independent sources. In addition, there were also shifts from domestic to foreign billet suppliers because the domestic companies producing lead billets were only able to meet their own internal consumption needs. As discussed above, since 1996, both AS&W and Sheffield have been forced to source lead billets from foreign suppliers as a result of the termination of their supply arrangements with USS/KOBE and Inland, respectively.

Our analysis demonstrates that imposition of the hot-rolled lead bar orders in 1993, was not the impetus for the importation of lead billet by the U.S. re-rollers in order to produce hot-25 rolled lead bar. As noted above, a number of the U.S. re-rollers were producing hot-rolled lead bar prior to the orders and continued to produce hot-rolled lead bar after the orders. In addition, these unaffiliated U.S. re-rollers invested a substantial amount in their rolling facilities both before and after the AD and CVD orders to roll both lead and non-lead billets into hot-rolled bar.

The facts of these inquiries also show that the foreign respondents did not change their product lines in the United States as a result of the initiation of the hot-rolled lead bar investigations. As noted, Thyssen's primary market in the United States has been lead billets since the mid-80's. British Steel, which commenced selling lead billets in 1994, continues to export a significant amount of hot-rolled lead bar to the United States.

Based upon this analysis under section 781(a) of the Act, we preliminarily find that circumvention of the AD and CVD orders on hot-rolled lead bar is not occurring by reason of imports of lead billets from Germany and the United Kingdom.

(a) A Party or interested person may challenge the final determination in whole or in part by filing a Complaint in accordance with Rule 39 within 30 days after the filing of the first Request for Panel Review (the deadline for filing a Complaint is May 14, 1998);

(b) A Party, investigating authority or interested person that does not file a Complaint but that intends to appear in support of any reviewable portion of the final determination may participate in the panel review by filing a Notice of Appearance in accordance with Rule 40 within 45 days after the filing of the first Request for Panel Review (the deadline for filing a Notice of Appearance is May 29, 1998); and

(c) The panel review shall be limited to the allegations of error of fact or law, including the jurisdiction of the investigating authority, that are set out in the Complaints filed in the panel review and the procedural and substantive defenses raised in the panel review.
