I. Abstract

The International Trade

"Survey of International Air Travelers"
is the only source for estimating
international travel and passenger fare
exports and imports for this country.
This program also supports the U.S.
Department of Commerce, Bureau of
Economic Analysis mandate to collect
and report this type of information
which is used to calculate Gross
Domestic Products for the United States.
In addition, this project serves as the
core data source for Tourism Industries.
Numerous reports and analyses are

developed to assist businesses in
increasing U.S. exports in international
travel. An economic impact of
international travel on state economies,
visitation estimates, traveler profiles,
presentations and reports are generated
by Tourism Industries to help the
federal government agencies and the
travel industry better understand the
international market. It is also a service
that the U.S. Department of Commerce
provides to travel industry businesses
seeking to increase international travel
and passenger fare exports for the
country. It provides the only
comparable estimates of nonresident
visitation to the states and cities within
the U.S., as well as U.S. resident travel
abroad. Traveler characteristics data are
also collected to help travel related
businesses better understand the
international travelers to and from the
U.S. so they can develop targeted
marketing and other planning related
materials.

II. Method of Data Collection

The collection is on U.S. and foreign
flag airlines who voluntarily agree to

SUPPLEMENTARY INFORMATION:

I. Abstract

The Contact Facilitation Service (CFS) is designed to put producers together

with exporters. Many U.S. firms have never exported because of a fear of the risks involved in exporting and a lack of knowledge of the international marketplace. New-to-export firms need the assistance of firms offering export trade services. One of the purposes of the Export Trading Company (ETC) Act of 1982 is to increase United States exports of goods and services by encouraging more efficient provision of export trade services to U.S. producers and suppliers. Section 104 of the Act directs Commerce to provide a service to facilitate contact between producers of exportable goods and services and firms offering export trade services.

The International Trade Administration (ITA) maintains a database for U.S. manufacturers, export trading and management companies, wholesalers/distributors, and international service firms. The CFS is designed to help promote exports and enable U.S. producers to locate ETCs and export services providers. Companies registered in the database are also listed in annual editions of The Export Yellow Pages which are distributed throughout the United States and worldwide. Without the information collected by the form, the CFS and The Export Yellow Pages would be unreliable and ineffective, because users of this kind of information need the current information about the listed companies.

II. Method of Collection

Form ITA-4094P is sent by request to U.S. firms.
