

care home sponsoring organizations, participating day care homes, "dropout" day care homes, and parents of children cared for in participating day care homes. The sampling process is four staged. Twenty States have been selected for the survey as a nationally representative sample of CACFP. The CACFP-administering agencies in those States will be asked for lists of sponsors. A random sample of the sponsors will be drawn and surveyed. From lists of participating and "dropout" homes provided by the sampled sponsors, random samples of participating and "dropout" homes will be selected and surveyed. From lists of parents provided by the participating day care homes, a random sample of parents will be drawn and surveyed.

Survey data will be collected through mail surveys, Computer-Assisted Telephone Interviewing (CATI), and, when necessary, personal interviews. With each stage of the sampling process dependent upon the success of the previous stage, every effort will be made to make the process as simple and user friendly as possible. For example, parents will be able to choose between a phone interview or mail survey to answer the household questions. Responses are voluntary and confidential. Survey data will be used with other data for statistical purposes and reported only in aggregate or statistical form.

No existing data sources, including FNS administrative data, can provide the information needed to complete the Study of Impact of Amendments on Program Participation and Family Day Care Licensing mandated by Congress. These data and the research they will support are vital to the Department's ability to assess the impact of amendments to CACFP.

Estimate of Burden: Public reporting burden for this data collection is estimated to vary by the type of respondent. Responses by sponsors and tier I providers are estimated to average 30 minutes. Responses by tier II and "dropout" homes are estimated to average 3 hours, with those who prepare foods needing an additional hour to answer an additional set of questions. Responses by parents of children cared for in participating day care homes are estimated to average 17 minutes. The estimates include time for listening to instructions, gathering data needed, and responding to questionnaire items.

Respondents: Representatives of day care home sponsoring organizations, participating day care providers, "dropout" day care providers, and parents of children cared for in participating day care homes.

Estimated Number of Respondents: 400 sponsors, 580 tier I providers, 580 tier II providers of which 145 prepare their own foods, 580 "dropout" day care providers of which 145 prepare their own foods, and 1,536 parents of children cared for in participating day care homes.

Estimated Total Annual Burden on Respondents: 4,521 hours.
