NUCLEAR REGULATORY COMMISSION

[NUREG-1600, Rev. 1]

Revision of NRC Enforcement Policy

AGENCY: Nuclear Regulatory Commission.

ACTION: Policy statement.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing a complete revision of the agency's Enforcement Policy (NUREG-1600, "General Statement of Policy and Procedure for NRC Enforcement Actions") based on (1) a 2-year review of the revised Enforcement Policy, that was effective June 30, 1995, and (2) a consolidation of changes to the Enforcement Policy since June 30, 1995. **DATES:** This action is effective May 13, 1998, while comments are being received. Submit comments on or before June 29, 1998.

ADDRESSES: Submit written comments to: David L. Meyer, Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mail Stop: T6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555. FOR FURTHER INFORMATION CONTACT: James Lieberman, Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, (301) 415-2741.

SUPPLEMENTARY INFORMATION: On June 30, 1995, the Commission published a complete revision of the NRC's Enforcement Policy (60 FR 34381). The changes to the Enforcement Policy resulted from the efforts of a review team established in 1994 to assess the NRC's enforcement program. The review team published its recommendations in

NUREG-1525, "Assessment of the NRC Enforcement Program," and the Commission made revisions to the Enforcement Policy after considering those recommendations. The revisions to the Enforcement Policy were intended to, among other things:

- Emphasize the importance of identifying problems before events occur, and of taking prompt, comprehensive corrective action when problems are identified;
- Direct agency attention at licensees with multiple enforcement actions in a relatively short period; and
- Focus on current performance of licensees.

The revisions to the Enforcement Policy were also intended to better focus the inspection and enforcement process on safety, provide greater incentives for strong self-monitoring and corrective action programs in the civil penalty assessment process, provide more predictability and consistency in the civil penalty assessment process, and to better convey clear regulatory messages.

When the Commission published the revised Enforcement Policy in the **Federal Register** on June 30, 1995, it stated that it would provide the public an opportunity to comment on the revised Enforcement Policy after it had been in effect for about 18 months. On February 5, 1997 (62 FR 5495), the Commission published an opportunity for the public to comment on the revised Enforcement Policy.

The NRC has reviewed approximately 2 years of experience under the revised Enforcement Policy and considered public comments. The NRC staff prepared a report (NUREG-1622,¹ "NRC Enforcement Policy Review: July 1995—July 1997," November 1997) that concluded that the changes made to the Enforcement Policy in 1995 (especially in the civil penalty assessment process) have helped to improve the predictability and consistency of enforcement actions, while maintaining the agency's desire to use enforcement sanctions for providing appropriate emphasis and deterrence in a way that helps to support the agency's overall safety mission. This conclusion is
