

The Committee Chairperson and Vice Chairperson shall be elected by the Committee from among its members.

Terms will expire for the current members of the Committee in June 1998. We are soliciting nominations from interested organizations and individuals to replace members on the Committee. An organization may nominate individuals from within or outside its membership. The Secretary will select members to obtain the broadest possible representation on the Committee, in accordance with the Federal Advisory Committee Act (Pub. L. 92-463) and U.S. Department of Agriculture (USDA) Regulation 1041-1. Equal opportunity practices, in line with the USDA policies, will be followed in all appointments to the Committee. To ensure that the recommendations of the Committee have taken into account the needs of the diverse groups served by the Department, membership should include, to the extent practicable, individuals with demonstrated ability to represent minorities, women, and persons with disabilities.

Done in Washington, DC, this 8th day of May 1998.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The BE-47 Annual Survey of Construction, Engineering, Architectural, and Mining Services Provided by U.S. Firms to Unaffiliated Foreign Persons will obtain data on U.S. sales to unaffiliated foreign persons of construction, engineering, architectural, and mining services. The information gathered is needed, among other purposes, to support U.S. trade policy initiatives and to compile the U.S. international transactions, input-output, and national income and product accounts. BEA is proposing to drop the requirement to report data on Form BE-47 by individual project and instead require reporting only by country. This proposed change will bring the format and design of the survey generally more into line with those of other surveys of international services transactions that BEA conducts. In addition, BEA is proposing a change in the way transactions are coded by type of service. Currently, eight codes are used to classify the data reported on Form BE-47 by type of service. These codes are based on the 1987 U.S. Standard Industrial Classification (SIC) system. BEA proposes to collapse these eight codes into three broad groupings, which will be based on the new North American Industry Classification System that is replacing the SIC. These proposed changes will result in a small reduction in the estimated time per response.

##### II. Method of Collection

The survey will be sent each year to potential respondents in January and responses are due by March 31. A U.S.

person providing construction, engineering, architectural, or mining services to unaffiliated foreign persons is required to report if the gross value of new contracts received or the gross operating revenues from all existing contracts is \$1 million or more during the covered year. A U.S. person that receives a form but is not required to report data must file an exemption claim.

### III. Data

*OMB Number:* 0608-0015.

*Form Number:* BE-47.

*Type of Review:* Regular submission.

*Affected Public:* U.S. business or other for-profit institutions providing construction, engineering, architectural, and mining services to unaffiliated foreign persons.

*Estimated Number of Responses:* 155.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

Commercial News USA (CNUSA), published twelve times a year by a private sector firm, is the U.S. Department of Commerce's export catalog-magazine. The product information in CNUSA reaches more than 145,000 distributors, government officials, and potential buyers overseas through direct distribution from U.S. embassies and consulates. Firms use the form to request that their product information be published in CNUSA, a service for which the firms pay a minimum fee of \$445.

This information collection item allows the U.S. Department of Commerce to promote U.S. products and services available for export as part of the USDOC's trade promotion activities. CNUSA is a unique export promotion service for U.S. manufacturers, service firms, and publishers of trade and technical literature; nothing similar is available to them through the private sector. The product promotions in CNUSA differ from paid advertisements in that they

must meet program criteria. Because U.S. embassies and consulates handle distribution, the product information reaches a vast, screened readership not only through direct dissemination but also via counseling by commercial officers and through walk-in visits to commercial libraries where CNUSA is displayed. Further, American Chambers of Commerce, local business editors, and other trade entities that reprint information from CNUSA or display or disseminate the entire magazine provide a multiplier effect.

### II. Method of Data Collection

The requests are sent to the private sector publisher.

### III. Data

*OMB Number:* 0625-0061.

*Form Number:* ITA-4063P.

*Type of Review:* Renewal; regular submission.

*Affected Public:* Companies interested in placing their product information available for export in Commercial News USA.

*Estimated Number of Respondents:* 2,200.

*Estimated Time Per Response:* 20 minutes.

*Estimated Total Annual Burden Hours:* 917.

*Estimated Total Annual Costs:* \$32,095.

### IV. Request for Comments

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and costs) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or forms of information technology.
