Substance Abuse and Mental Health Services Administration Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Community Mental Health Centers (CMHC) Construction Grantee Checklist—0930-0104—Extension, no change—Recipients of Federal CMHC construction funds are obligated to use the constructed facilities to provide mental health services. The CMHS Act

was repealed in 1981 except for the provision requiring grantees to continue using the facilities for mental health purposes for a 20-year period. In order for the Center for Mental Health Services to monitor compliance of construction grantees the grantees are required to submit an annual report. The Checklist enables grantees to supply necessary information efficiently and with a minimum of burden.

	Annual respondents	Responses/respondent	Hours per response	Annual burden
CMHS Grantee Construction Checklist [42 CFR 54.209(h), 42 CFR 54.213, 42 CFR 54.214]	* 68	1	.33	22

* Average over the 3-year approval period as grantees with service obligations continue to complete their period of obligation.

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Daniel Chenok, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, D.C. 20503.

Dated: May 7, 1998.

Bureau of Land Management

[WO-350-1540-01]

Extension of Approved Information Collection, OMB Number 1004-0009

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) is announcing its intention to request an extension of existing approval to collect certain information from applicants who wish to acquire a Land Use Authorization (form 2920-1) on public lands under the Federal Land Policy and Management Act (FLPMA) of 1976. The regulations at 43 CFR 2920 provide for non-Federal use of Bureau-administered land by means of lease or

permit. Uses include agriculture, trade, or manufacturing concerns and business uses such as outdoor recreation concession. The BLM will determine the validity of uses proposed by private individuals and other qualified proponents from information provided by the proponent on the Land Use Application and Permit form.

DATES: Comments on the proposed information collection must be received by July 13, 1998 to be considered.

ADDRESSES: Comments may be mailed to: Director (420), Bureau of Land Management, 1849 C Street NW, Room 401LS, Washington, DC 20240.

Comments may be sent via Internet to: WoComment@wo.blm.gov Please include "ATTN: 1004-0009" and your name and return address in your Internet message.

Comments may be hand-delivered to the Bureau of Land Management Administrative Record, Room 401, 1620 L Street, NW, Washington, DC.

Comments will be available for public review at the L Street address during regular business hours (7:45 a.m. to 4:15 p.m.), Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Carl C. Gammon, (202) 452-7777.

SUPPLEMENTARY INFORMATION: In accordance with 5 CFR 1320.12(a), BLM is required to provide 60-day notice in the **Federal Register** concerning a collection of information contained in a published current rule to solicit comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. The BLM will receive and analyze any comments sent in response to this notice and include them with its request for approval from the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

The FLPMA of 1976 (43 U.S.C. 1732, 1740), provides for issuance of land use authorizations which may include leases or permits, to eligible proponents. The BLM has implemented the provisions of this requirement through

the issuance of 43 CFR 2922.2-1, which provides for the submission of the "Land Use Application and Permit," or application, Form 2920-1. The information collected on the application is used by the BLM to identify the proposed land use and activities, describe all facilities for which authorization is sought, to identify the location, to determine a schedule for construction and to identify access requirements. Since the information collected is unique to each application, no other suitable means of information collection has been identified which could gather the information at a lesser burden. If the BLM fails to properly collect the required information, the BLM will reject the application.

Based on BLM's experience administering the activities described above, approximately 620 applications (577 Permits, 43 Leases) are received annually. It will take an average of 30 minutes for over 94 percent of the applicants to supply the needed information. For the other 6 percent of the applicants who are applying for leases, the average burden is 121 hours to supply the necessary information. The range in burden hours is due to the fact that a lease application, because of its nature, requires more time on the part of an applicant to supply the needed information. For example, a lease application to construct a multi-million dollar ski facility could involve construction drawings, site and facility plans, other Federal and State licenses and permits, and other preauthorizing requirements involving many days to process. Conversely, a relatively routine application (permit) to use public lands for agricultural purposes could be processed in 1/2 an hour.

The estimated total annual burden on new respondents is about 5,955 hours.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will also become a matter of public record.

Dated: April 30, 1998.

Carole J. Smith,

Bureau of Land Management, Information Clearance Officer.
