Since 1993, the policy has been developed with input from Department of the Interior offices, other Federal agencies, congressional representatives, State and local governments, the public concessionaires, and groups and organizations who expressed interest in proposed drafts of the concession management policy and directives and standards.

Notice Inviting Proposals for Promoting Employer Participation in School-to-Work (STW) Systems

SUMMARY: This notice contains all of the necessary information and forms to apply for grant funding. The Departments of Labor and Education jointly are accepting proposals for a new award in FY 97, as authorized under section 403 of the School-to-Work Opportunities Act of 1994 (the Act). The Departments believe that a targeted approach to employer involvement through a unified, singular and strategically managed award, has the potential to increase the number of employers participating in STW systems, build their capacity to influence and benefit from STW partnerships, and increase the ability of other STW stakeholders to develop effective, sustainable partnerships with employers.

Employer Technical Support Coordination Solicitation

I. Purpose

To invite proposals to coordinate an array of national efforts to engage employers in STW and to provide technical support to STW partners that will increase and maximize employer participation in these partnerships.

II. Background

The School-to-Work Opportunities Act was signed into law by the President on May 4, 1994. Jointly administered by the Departments of Labor and Education, this Act is a new approach to education that seeks to better prepare all American Youth for careers in high skill, high wage jobs and to strengthen the linkages between what is learned in school with work. Under the Act, venture capital grants are provided to States and local communities to undertake systemic reform. Grants are for a limited duration with the Federal investment declining over time. These investments are intended to support the one-time costs of States and local communities to restructure learning experiences for all students. The Act also provides a set-aside of funds for national activities to support School-to-Work system building nationwide. These funds are used for technical assistance and capacity building, for outreach, and for research and evaluation. Section 403 of the Act, relating to training and technical assistance, specifically directs the Secretaries to "work in cooperation with * * * employers and their associations * * * to increase their capacity to develop and implement effective School-to-Work programs."

III. Statement of Work

Employer Participation in STW

Changes in the economy, technology and global competition are driving forces behind efforts to improve the academic performance and career preparedness of today's youth. Among its purposes, the National School-to-Work Act was enacted to: "utilize workplaces as active learning environments in the educational process by making employers joint partners with educators in providing opportunities for all students to participate in high quality, work-based learning experiences." Work based learning is one of the three key components within a STW system (school-based learning and connecting activities are the other two). At the early stages of STW implementation, one of the key considerations was to build employer
