BILLING CODE 4140-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Intent To Reconsider Procedures for Administration of Funding for National Conservation Priorities Under the Federal Aid in Wildlife Restoration Act and the Federal Aid in Sport Fish Restoration Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The Fish and Wildlife Service will reconsider procedures for administration of national projects funded from Federal Aid in Wildlife Restoration Act and Federal Aid in Sport Fish Restoration Act administrative funds. The Service intends to publish a full range of options for funding future national conservation priorities in the **Federal Register** for public review and comment. Interested persons should contact the Service to receive a copy of the options.

DATES: The Service intends to publish these options in the **Federal Register** on or about September 1, 1998.

ADDRESSES: Requests to receive copies of the proposed options should be sent to Mr. Tom Taylor, Division of Federal Aid, U.S. Fish and Wildlife Service, 4401 N. Fairfax Drive, Room 140, Arlington, Virginia 22203.

FOR FURTHER INFORMATION CONTACT: Tom Taylor, Division of Federal Aid, U.S. Fish and Wildlife Service; telephone (703) 358-2156, fax (703) 358-1837.

SUPPLEMENTARY INFORMATION: The Federal Aid in Wildlife Restoration Act (16 U.S.C. 669) and the Federal Aid in Sport Fish Restoration Act (16 U.S.C. 777) make funds available to states for qualifying grants on a three-to-one-matching basis. Provisions of both Acts authorize the Secretary to utilize a certain percentage of the funds available for each program for expenses in administering the Federal Aid program. Specifically, the Secretary is authorized to utilize up to 8 percent of funds available under the Wildlife Restoration Act for necessary administration of the program while the Sport Fish Restoration Act allows the Secretary to utilize up to 6 percent of available funds for administrative purposes. The Service has utilized much of this authorized funding by awarding grants for projects that have been identified by states collectively as national priorities.

The Service has identified specific focus areas in soliciting proposals for this year's funding. (63 FR 17882 published April 10, 1998). Grants will be awarded by the Service after reviewing proposals for eligibility and receiving priority rankings by the Grants-in-Aid Committee of the International Association of Fish and Wildlife Agencies, an organization representing state fish and wildlife agencies.

This notice advises the public that the Service will develop a full range of options for funding future national conservation priorities pursuant to the Federal Aid in Wildlife Restoration Act and Federal Aid in Sport Fish Restoration Act. The Service intends to publish these options in the **Federal Register** on or about September 1, 1998, for a 60-day period of public review and comment. Interested persons contacting the Service will be put on a mailing list to receive a copy of the options which will be developed for the aforementioned public review and comment.

Each request should include a complete mailing address to which the proposed options will be sent.

Dated: May 15, 1998.

Jamie Rappaport Clark,

Director.

BILLING CODE 4310-55-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WY-030-1990-00]

Notice of Availability

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability of the finding of no significant impact (FONSI) and proposed decision for the Shirley Mountain Planning Review Travel Management Environmental Assessment (EA), Carbon County, Wyoming, and amendment of the Great Divide Resource Management Plan.

SUMMARY: The Shirley Mountain Planning Review Area contains approximately 69,590 acres of intermingled public, private, and State lands located approximately 40 miles northwest of the town of Medicine Bow, all in Carbon County, Wyoming. The planning review was conducted to determine the impacts to the BLM administered public lands, adjacent non-Federal lands, and associated resource uses resulting from a proposed amendment to the Great Divide Resource Management Plan (RMP). The proposed RMP decision amendment would change the current Off Road Vehicle (ORV) designation in the area from "limited to existing roads and trails" to "limited to designated roads and trails" and includes several requirements and stipulations for implementing the changed decision.

DATES: A 30-day protest period for the proposed planning decision will begin the day following the publication of this notice.

ADDRESSES: Protests must be addressed in writing to the Director (210), Bureau of Land Management, Attention Brenda Williams, 1849 C Street NW, Washington, D.C. 20240. Protests must be postmarked within 30 days following the date that this notice of availability (NOA) of the proposed decision is published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Interested parties may direct questions, concerns, or obtain further information by contacting Karla Swanson, Great Divide Resource Area Manager, Sarah Crocker, Project Leader, or John Spehar, Planning and Environmental Coordinator, at the Bureau of Land Management Office, 1300 N. Third Street, Rawlins, Wyoming 82301, or by telephone at 307-328-4200.

SUPPLEMENTARY INFORMATION: The need for an ORV designation change within the planning review area is based upon recommendations made by the ad hoc

Shirley Mountain Technical Committee and previously completed studies and activity plans. In 1985, the BLM completed a Habitat Management Plan (HMP) for Shirley Mountain. The HMP recommended that several two-track trails be closed to motorized vehicle travel because they were fragmenting wildlife habitat, were unnecessary for adequate public access to public lands, and had associated erosion problems. In 1994, the Wyoming Game and Fish Department completed a habitat analysis for the Shirley Mountain area identifying habitat problems impacting wildlife populations and potential solutions. The study found that the majority of hiding cover for large game animals was heavily dissected by a system of roads and trails. Security areas for these animals during hunting season were very limited. The study recommended that future BLM management restrict the construction of new roads and that a plan be developed to manage recreational road and trail use and to reduce road and trail proliferation. A change in ORV designation for the Shirley Mountain Planning Review Area will allow the BLM to implement a travel management plan in the future. Included in the decision to change the ORV designation for the review area are requirements and stipulations for implementing the ORV designation decision. These include the development of a travel activity or implementation plan. As provided in 43 Code of Federal Regulations, Part 1610.5-2, any person who participated in the planning review process and has an interest which is or may be adversely affected by the approval or amendment of a resource management plan may protest such approval or amendment. A protest may concern only those issues which were raised and submitted for the record during the planning review process and by only the party(ies) who raised the issue(s). All parts of the proposed decision may be protested. Protests must be in writing and must be postmarked within 30 days following the date this notice of availability of the decision record is published in the **Federal Register**. Protests must include (a) the name, mailing address, telephone number, and interest of the person filing the protest; (b) a statement of the issue or issues submitted during the planning process by the protesting party; (c) a statement of the part, or parts, of the proposed decision being protested; (d) a copy of all documents addressing the issue or issues that were submitted during the planning review process by the protesting party or an indication of the date the issue or issues were
