The land is no longer needed for the purpose for which it was withdrawn. This action also allows the conveyance of the land to the State of Alaska, if such land is otherwise available. Any land described herein that is not conveyed to the State is opened and will be subject to the terms and conditions of the national forest reservation and any other withdrawal of record.

**EFFECTIVE DATE:** May 26, 1998.

#### Public Land Order No. 7330; Modification and Partial Revocation of 9 Executive Orders, 17 Secretarial Orders, and 8 Bureau of Land Management Orders; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

**SUMMARY:** This order modifies 9 Executive orders, 17 Secretarial orders, and 8 Bureau of Land Management Orders to establish a 20-year term as to 15,503.70 acres of public lands withdrawn for Bureau of Land Management public water reserves. These withdrawals are also modified to allow for nonmetalliferous mining location on all but 170 acres of the 15,503.70 acres. This order also partially revokes the above orders insofar as they affect 30,023.80 acres of public lands withdrawn for Bureau of Land Management public water reserves. These lands do not meet the criteria for a public water reserve. This action will open the 30,023.80 acres to surface entry and nonmetalliferous mining. All of the lands have been and will remain open to metalliferous mining location and to mineral leasing.

**EFFECTIVE DATE:** June 25, 1998.

 The areas described aggregate  
 15,503.70 acres in Fremont, Sublette,  
 Sweetwater, and Uinta Counties.  
 The lands described shall continue to  
 be segregated from the operation of the  
 public land laws generally.  
 4. At 10 a.m. on June 25, 1998, the  
 lands described in paragraphs 1 and 3,  
 except those lands described in  
 paragraph 5, shall be opened to  
 nonmetalliferous mineral location and  
 entry under the United States mining  
 laws, subject to valid existing rights, the  
 provisions of existing withdrawals,  
 other segregations of record, and the  
 requirements of applicable law.  
 Appropriation of any of the lands for  
 nonmetalliferous minerals under the  
 general mining laws prior to the date  
 and time of restoration is unauthorized.  
 Any such attempted appropriation,  
 including attempted adverse possession  
 under 30 U.S.C. Sec. 38 (1994), shall  
 vest no rights against the United States.  
 Acts required to establish a location and  
 to initiate a right of possession are  
 governed by State law where not in  
 conflict with Federal law. The Bureau of  
 Land Management will not intervene in  
 disputes between rival locators over  
 possessory rights since Congress has  
 provided for such determinations in  
 local courts.  
 The lands described in paragraphs 1  
 and 3 have been and will continue to be  
 open to metalliferous mineral location  
 and entry under the United States  
 mining laws and to applications and  
 offers under the mineral leasing laws.  
 5. The following Public Water  
 Reserves will remain segregated from  
 nonmetalliferous mineral location:  
 a. The land described below is in an  
 area where water supplies are extremely  
 deficient and there are some  
 occurrences of zeolite deposits. Mineral  
 exploration and development activities  
 would destroy an important water  
 source.
