Written comments, which may be of any length, may be provided to the relevant committee or subcommittee up until the time of the meeting.

Section 226(c)(1)(A), Section 64.703(b) of the Commission's rules provides that aggregators (providers of telephones to the public or transient users) must post in writing, on or near such phones, information about presubscribed operator services, rates, carrier access, and the FCC address to which consumers may direct complaints.

*OMB Control No.:* 3060-0149.

*Title:* Application and Supplemental Information Requirements—Part 63, Section 214, Sections 63.01-63.601.

*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Businesses or other for-profit entities.

*Number of Respondents:* 255 respondents.

*Estimated Time Per Response:* 10 hours per response (avg.).

*Total Annual Burden:* 2550 hours.

*Estimated Annual Reporting and Recordkeeping Cost Burden:* \$0.

*Frequency of Response:* On occasion reporting requirement.

*Needs and Uses:* Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214, requires that a carrier must first obtain FCC authorization either to (1) construct, operate, or engage in transmission over a line of communication, or (2) discontinue, reduce, or impair service over a line of communication. 47 CFR Part 63 implements Section 214. In a NPRM issued in CC Docket No. 97-11, the Commission proposed to modify 47 CFR Part 63 to eliminate information submission requirements entirely for some categories of communications carriers and to reduce the submissions

requirements for other categories. The Commission proposed entirely eliminating the requirement for carriers to file applications for line "extensions" because Congress has exempted line "extensions" for the requirements of 47 U.S.C. 214, under Section 402(b)(2)(A) of the Telecommunications Act of 1996. The Commission also proposed eliminating the requirement for reports submitted by carriers identified by the Commission as domestic non-dominant carriers, small carriers, and carriers proposing small projects. For carriers identified by the Commission as domestic dominant rate-of-return carriers, the Commission proposed reducing (but not entirely eliminating) the information submission requirements in applications for "new" lines, because the information is collected elsewhere, is unnecessary, is confusing in light of the provisions of section 402(b)(2)(A), or is no longer of decisional significance to the Commission. The information received in applications from dominant carriers (not proposed to be reduced) has been used by the Commission to determine if the facilities are needed. The information contained in reports from nondominant carriers (not proposed to be eliminated) has been used to monitor the growth of the networks and the availability of common carrier services in this segment of the telecommunications market, to relieve these carriers and the Commission of a before-the-fact review of each subsequent facility addition. These collections of information were deemed necessary to enable the Commission to comply with its mandate. Because Congress has changed the Commission's mandate in the Telecommunications Act of 1996, the information proposed to be reduced or eliminated may no longer be warranted.

*OMB Control No.:* 3060-0815.

*Title:* North American Numbering Plan Funding Worksheet.

*Form No.:* FCC Form 496.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit.

*Number of Respondents:* 3700 respondents.

*Estimated Time Per Response:* .50 hours per response (avg.).

*Total Annual Burden:* 1850 hours.

*Estimated Reporting and Recordkeeping Cost Burden:* \$0.

*Frequency of Response:* On occasion reporting requirement.

*Needs and Uses:* Pursuant to Congress' directive in the Telecommunications Act of 1996 that

the Commission establish an independent entity to administer telecommunications numbering, the Commission determined on July 13, 1995, that the costs associated with administering numbering duties should be based on each telecommunications carrier's gross revenues less payments made to other carriers. We authorized the North American Numbering Plan Administrator's (NANPA) billing and collections agent to send FCC Form 496 requesting that telecommunications carriers provide information regarding their yearly gross revenues less payments made to other telecommunications carriers. The worksheet, FCC form 496, seeks financial data, and payment from telecommunications carriers to fund NANPA. All common carriers providing telecommunications service between U.S. and foreign points must file this worksheet. The Commission and the NANPA will use the information collected in the worksheet to determine the total revenue received from telecommunications carriers in order to arrive at an amount that each carrier must pay to fund the NANPA.

*OMB Control No.:* 3060-0613.

*Title:* Expanded Interconnection with Local Telephone Company Facilities, CC Docket No. 91-141, Transport Phase II (Third R&O).

*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit.

*Number of Respondents:* 64 respondents.

*Estimated Time Per Response:* 13 hours per response (avg.).

*Total Annual Burden:* 832 hours.

*Estimated Annual Reporting and Recordkeeping:* \$0.

*Frequency of Response:* On occasion reporting requirement.

*Needs and Uses:* Tier 1 local exchange carriers (except NECA members) are required to make tariff filings to provide certain signalling information to interested parties so that those parties can provide tandem switching services.
