Administration on Aging

Public Information Collection Requirement Submitted to the Office of Management and Budget for Clearance

AGENCY: Administration on Aging.

SUMMARY: The Administration on Aging (AoA), Department of Health and Human Services, in compliance with the Paperwork Reduction Act (Public Law 95-511), is submitting to the Office of Management and Budget for clearance and approval an information collection instrument, namely Performance (Progress) Reports for Title IV Grantees.

Type of Request: Extension of currently approved collection.

Use: Consistent with 45 CFR Part 74, Subpart J, the AoA requires grantees funded under Title IV of the Older Americans Act to report on the performance of their projects. The report is used by the AoA to review and monitor the grantee's progress in achieving project objectives, provide advice and assistance, and to take corrective action as necessary.

Frequency: Semiannually.

Respondent: Title IV grantees.

Estimated number of respondents: 60

Estimated burden hours: 20 hours for each semiannual report.

Additional Information: Each progress report, typically 5 pages in length, is expected to cover the following subjects: recent major activities and accomplishments; problems encountered; significant findings and events; dissemination activities; and; activities planned for the next 6 months.

OMB Comment: OMB is required to make a decision concerning this collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it as soon as possible after its publication.

Written comments and recommendations for the proposed information collection should be sent to the following address within 30 days of the publication of this notice: Office of Information and Regulatory Affairs, Attention: Allison Eydt, OMB Desk Officer, Office of Management and Budget, Washington, DC 20503.

Diane Justice,

Deputy Assistant Secretary for Aging.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Projects

*1. Surveillance for Bloodstream and Vascular Access Infections in Outpatient Hemodialysis Centers—New—*National Center for Infectious Diseases (NCID). The Hospital Infections Program, NCID is proposing a study of bloodstream infections, vascular access infections, hospitalizations, and antimicrobial starts at U.S. outpatient hemodialysis centers. Although bloodstream and vascular access infections are common in hemodialysis patients, there is no existing system to record and track these complications. Participation in the proposed project is voluntary; it is estimated that 100 of the approximately 3,000 U.S. outpatient hemodialysis centers will participate. Participating centers may collect data continuously, or may discontinue participation at any time; we estimate that the average center will participate for six months. Each month, participating centers will record the number of hemodialysis patients they treat and maintain a log of all hospitalizations and intravenous (IV) antimicrobial starts. For each hospitalization or IV antimicrobial start, further information (e.g., type of vascular access, clinical symptoms, presence of a vascular access infection, and blood culture results) will be collected. A computer program will be developed to allow dialysis center personnel to enter and analyze their own data; they will also transmit the data to CDC with all patient identifiers removed. CDC will aggregate this data and generate reports which will be sent to participating dialysis centers. Rates of bloodstream infection, vascular access infection, and antimicrobial use per 1000 patient-days will be calculated. Also, the percentage of antimicrobial starts for which a blood culture is performed will be calculated. Through use of these data, dialysis centers will be able to track rates of key infectious complications of hemodialysis. This will facilitate quality control improvements to reduce the incidence of infections, and clinical practice guidelines to improve use of antimicrobials. The total cost to the respondents is \$78,000.
