block grants to States for the purpose of providing substance abuse prevention and treatment services. Under the provisions of the law, States may receive allotments only after an application is submitted and approved by the Secretary, DHHS. For the FY 1999 Substance Abuse Prevention and Treatment (SAPT) Block Grant cycle, SAMHSA plans to provide States with slightly modified application forms and instructions. These changes affect the portion of the application that asks for information related to section 1926 (sales of tobacco to minors). The application will no longer require a description of sampling methodologies and procedures for identifying and selecting tobacco outlets to be sampled throughout a State, unless a change to such methodologies or procedures has occurred in the previous year. The application will provide for more detailed information on the results and validity of the random unannounced inspections, and it will request greater detail on the number and results of actual enforcement activities that a State has undertaken. At the request of the Department, SAMHSA plans to include an additional tobacco-related question to Attachment 6 of the application. This question will require States to briefly describe collaboration between each State's Tobacco and Health Office (ASTHO representative) and Single

State Authority for Substance Abuse (NASADAD representative). Because Federal funds for tobacco prevention and control efforts are, in most cases, awarded to different State-level agencies, it is necessary for the Department and SAMHSA to verify and understand interactions at the State level on youth tobacco prevention and enforcement. SAMHSA also plans to modify Attachment 2 to include an additional question regarding tobacco use among minors. Finally, SAMHSA will modify the race/ethnicity categories in Form 9 to comply with recent revisions to OMB Directive No. 15. These modifications are not expected to increase respondent burden. The annual burden estimate for the SAPT Block Grant Application Format is shown below:

Number of respondents	Re-sponses per respondent	Hours per response	Total hours
11	1	530	530
59	1	563	33,217
Total	33,747

¹ Red Lake Indian Tribe (exempt from Tobacco Regulation requirements).
